

MANUFACTURING ENGINEERING TECHNOLOGY

The *Associate degree* in Manufacturing Engineering Technology is designed to meet the needs of industrial organizations in Ohio and throughout the nation.

The program is devised to develop strength in analytical reasoning, understanding of the scientific basis for manufacturing, fundamental manufacturing and product technologies, and effective written and oral communications. Graduates have studied all aspects of automation used in manufacturing. The program is designed to raise questions and help explore the interactions between technology and society. Computers are used for design, control, planning, analysis and communications functions as a matter of course.

Full-time students follow a cooperative work experience schedule. Two of the eight curriculum quarters are devoted to the co-op requirement. Employment opportunities include: manufacturing methods analyst, quality technician, and management trainee.
