The campus of the University of Cincinnati is a safe and secure learning environment. During construction our walkways can be compromised. Please plan ahead when navigating the campus. Accessible pathways are illustrated in this map as a blue line. If you need assistance at anytime, please pick up one of the help phones indicated (as a phone symbol) in the area and explain your need. A UC representative will be able to assist you. If you have questions or concerns please call Planning+Design+Construction at 556-1933.

Beginning on Monday, March 13, 2017 construction perimeter fencing will begin for the Fifth Third Arena Renovation. The sidewalk south of the arena will be minimized but remain open, as well the interior passage at the northwest corner of the arena at the 400 level. The east-west interior corridor on north side of the arena at 300 level will be closed. The primary pedestrian modification will occur east of the arena where the exterior stairs will be detoured via Dabney Hall. The closures will remain in effect until the project is completed in November 2018.
