ARTS & HANDICRAFTS

NEW! HAND EMBROIDERY: ADVANCED TECHNIQUES

This class is intended for anyone who has taken Embroidery Basics or some experience with embroidery fundamentals. You will learn several advanced stitches: laced running stitch, fishbone stitch, whipped circle, satin stitch, bullion knot, double knot, and rope stitch. You will be given an alphabet embroidery sampler to start working on which will use all of the stitches taught. Embroidery is a fun and relaxing activity and we look forward to having you join our class. All supplies: fabric, floss, needle and embroidery hoop, will be provided.

Instructor: Heidi Rice

Wednesday, October 4, 6:30–8:30 pm, \$39

DOODLING MASTERPIECES

Tangle art. Meditative drawing. Zentangle®. Pattern drawing. All are names for basically the same thing: making artistic drawings out of patterns. In this class, you will learn how to combine simple forms, circles, lines, and dots into eye-catching patterns. Next, you will learn how to use those patterns to create unique pieces of art. People of all skill levels are invited to experience how enjoyable making artistic illustrations from patterns can be.

Instructor: Alisa Strauss

NEW! SEW A TRAIL TOTE BAG

Join our Fall sewing class and make an adorable and practical tote designed by Robert Kaufman Fabrics. Our experienced sewing instructor will guide you step-by-step through this project. The tote has a zipper, piping, and a magnetic closure, so it's a good skill builder project. You will need a sewing machine and be comfortable operating your machine to take the class. The free pattern and supply list will be emailed to you prior to the start of the class.

Instructor: Heidi Rice

Wednesdays, October 25–November 8, 3 weeks, 6:30–8:30 pm, \$49

WATERCOLOR IN A DAY

Try something new, you'll like it! In this introductory class, you will learn the basic techniques, pigments and tools to produce luminous landscape paintings. You will receive step-by-step demonstrations to guide you and ignite your talents. Experience the joy of painting, of self-expression, and of seeing the world in a new way as you create your own original paintings. All are welcome, no experience necessary. All supplies will be provided: archival paper, artist grade paint, brushes and all incidentals.

Instructor: Jean Vance

Saturday, June 17, 10 am–4 pm, \$69, plus supply fee

PAINT YOUR PET'S PORTRAIT

Bring out your natural creativity and enjoy painting with pastels, a medium that is unique in its simplicity, versatility and brilliant colors. Pastel paints have been used by artists since the Renaissance to quickly apply rich, intense color to artists surfaces without the need for paintbrushes, solvents, or a palette. The technique used to layer and blend the colors on a surface is what will make your creation come alive and shine. Professional grade pastel paints, archival paper, and any other supplies will be provided. Your finished artwork will make a terrific holiday gift!

Instructor: Kevin McCarty

Saturday, October 7, 12–4 pm, \$75

DRAWING MANDALAS

Learn to create and design your own mandalas, circular designs created through the use of repeated images and geometries. In one session, you will learn the basics of circular geometry, how to divide spaces, and how to use that knowledge to create wonderful artworks to treasure and share. Use the skills and supplies you acquire in the class to create as many designs as you like. No previous art experience is necessary.

Instructor: Alisa Strauss

Thursday, October 12, 6:30–8:30 pm, \$39, plus supply fee

Must enroll by October 5

HUMAN FIGURE DRAWING CLASS

A comprehensive guide to drawing the human figure. Using classical methods of instruction, you will learn the basics of foreshortening, perspective, body proportion, line quality and composition. These tools will provide you with a proven method of rendering the figure in an accurate and esthetically pleasing manner. This class is designed for both beginners and practicing artists looking to brush up on fundamental skills! A live model will be present on the final day of class for real life sketching. A sketch book and pencil is all you need.

ASTRONOMY

Location: Cincinnati Observatory Center.

The Cincinnati Observatory strives to share the universe and our historic site with all our visitors, and to comply with ADA guidelines, will make all reasonable accommodations to ensure a positive experience when visiting the Observatory. However please note that there are limitations imposed by our architecture, being a National Historic Landmark, and our being a functioning astronomical observatory. The physical act of getting to the telescope's eyepiece for viewing can also be an issue. The eyepieces on our two main telescopes can be anywhere from 4 feet to over 14 feet above the floor, which typically requires climbing a stepped platform to reach.

BEHIND THE SCENES AT THE OBSERVATORY

Look to the heavens through the oldest continuously used telescope in the world; explore the depths of the 1873 observatory, including its attic and basement; and learn why President Adams laid the observatory's original cornerstone in 1843. Hear the fascinating history of the founding of the observatory; investigate how the 19th century astronomers determined time for the city of Cincinnati; discover why the observatory was designated a National Historic Landmark; and find out what is in store for the future. The Moon will be viewed through the telescope following the program, weather permitting.

Tuesday, September 26, 7–9 pm, \$35

NEW! LONGITUDE: JOHN HARRISON AND HIS CLOCKS

Knowing what time, it is, exactly, has been part and parcel to knowing where you are on the planet, especially at sea. Comparing sky-time with your clock-time told you where you were, your longitude. This was a nearly impossible task with the mechanisms of early time keeping up to the 18th century, which resulted in seafaring catastrophe after catastrophe; lost at sea or found on the reef. All of that changed in the 1700's because of the life-long work of a third-grade educated, back-woods carpenter, who took on the scientific establishment of his day and brought us into the world of modern accurate time-keeping. John Harrison's clocks and advances in clock making told us what time it is, exactly, and set records in accuracy that stood for centuries, even into the 21st century. Let's find out what makes clocks tick, *literally*.

Instructor: David Bosse

Tuesday, November 21, 7–9 pm, \$35

UNDERSTANDING THE TIDES

From surfers to sailors to military planners, tides have been a useful and at times, confounding natural phenomena. Usually relegated to the realm of weathermen, tides are actually of astronomical origin, the mechanism best explained by astronomers. Understanding how and why tides work has been an important study of mankind for millennia, making it possible to predict when the surf's up. Knowing that somehow the moon is involved is just part of the story. The Sun, the shoreline, the continental shelf, and even the barometric pressure all conspire to determine the effect of the tides. The effect can be very small or absolutely huge.

Instructor: Dave Bosse

Monday, October 23, 7–9 pm, \$35

TOUR OF THE UNIVERSE

Explore space from the Earth and beyond! Fly past the moon, the planets, the stars, and galaxies to the edge of what is known. Bring your questions about the Cosmos, and our Observatory Scientist will answer as many as he can. View through the oldest operational telescope in the country, weather permitting. *Ad Astra!*

THE BUZZ ABOUT BEEKEEPING

Pollination by bees is important to commercial crops, but did you know that everyday beekeepers find dramatic improvements in their gardens? Bigger

fruits, flowers, and vegetables — and more of them! Besides honey, bees produce other harvestable and useful products that are good for one's health, including beeswax, propolis, and royal jelly. Backyard beekeeping is also crucial in the efforts to reestablish lost colonies of bees. Join Luke Jett for a two-week introductory course starting September 25 to discover The Buzz About Beekeeping. Luke is a biomedical engineering student at the University of Cincinnati, has been recreational beekeeping a single hive for over three years, and is a member of the Southwestern Ohio Beekeepers Association. Covering the basics from purchasing and starting a hive to making it through your first winter, you will learn the basic biology of honey bees, the different types of bees, tools of a beekeeper, the installation of a hive and how to acclimate a queen bee, and how to feed and care for your bees.

RETHINKING CINCINNATI’S GREATEST GENERATION

As part of your Veteran’s Day celebration, join this fresh and innovative examination of one of the most critical periods of our city’s and our nation’s history. As a Midwestern producer of goods with a vital transportation center and racially, ethnically diverse population, the wartime challenges facing Cincinnati mirrored those that faced our nation. In this way, Cincinnati’s story can serve as a viable case study in this effort to rethink the past. In this class, we will examine the lives of several Cincinnatians, all unsung heroes in their own way. Using mini biographies, we will have a chance to think about and discuss the meanings of patriotism and heroism. As part of your tuition for this course, you will receive an autographed copy of this book signed by the author.

Instructor: Bob Miller

Monday, November 6, 10:30 am–12:30 pm, \$35

Course Spotlight

TRAVEL HACKING 101 AND THE INTREPID TRAVELER

Simone Kuzma specializes in travel education and experiential trips and is the founder of Wanderlust:Wanderlearn, a travel education organization with a mission to empower people to become more capable and confident independent travelers.

Wanderlust:Wanderlearn achieves this mission via educational programs and travel experiences designed to grow and develop these skills in travelers of any level.

New this fall at Community is Travel Hacking 101 on October 17. Simone will show you how to use popular travel offers, memberships and points to earn free flights, hotel rooms, trips and more. You can often earn these incentives without leaving your house!

Returning for another semester is Simone’s popular Intrepid Traveler series. The series begins with Travel Logistics on October 9. New and experienced travelers will learn about passports and visas, entry requirements, how to choose a destination, how to create a budget, and international travel safety programs. Once the flights are booked, Simone will share some Savvy Travel Tips on October 16. Learn how to save money on travel and health insurance, cell phones and communication, electronics and adapters, plus discussion on immunizations, health concerns, and safety.

Solo and aspire to yolo? On October 23, Simone will discuss Solo Travel and share information about the challenges and opportunities available to those who travel on their own, plus tips on how to travel smart — including following local customs and being safe — where to go, and how to travel solo.

Save 20% when you register for all three classes and become the Complete Intrepid Traveler!

STORY TELLING

Tall tales, yarns, ghost stories, parables, poker bluffs. Story telling is an ancient and enduring form of entertainment and wisdom teaching that makes people smile. Whether it’s around the campfire or around the cocktail circuit, a good story can capture the imagination and be retold over and over again for years. Anywhere people gather there’s a built-in audience. We’ll discuss some of story telling’s greatest secrets. Guaranteed, there will be at least a few whoppers.

Instructor: Brian L Meyers

Thursday, September 28, 6:30–8:30 pm, \$39

NARRATIVE ESSAY: STORY TELLING II

Narrative essay is the story of your experience. Perhaps you want to tell the story of something that happened to you or, perhaps, your story is about something you watched unfold around you. A good essay is more than just telling the news. It has character and color. It tells a story that intrigues and engages your reader. Join us for an engaging discussion about some of writing’s greatest secrets. This workshop is perfect for anyone who wants to flesh out their memoir or who is interested in crafting the ideal college essay. Story Telling I is recommended, but not required.

NEW! BIG DATA IN HEALTH CARE: ONLINE

Due to rapid technological and legislative changes, the data collection associated with providing healthcare has increased dramatically. As the volume of patient data increases, so does the complexity of the interfaces among medical devices, hospital information systems, and the electronic health record (EHR). It's a struggle to know exactly what data gets produced, where it gets sent, and who has access to it. This course addresses segments of the healthcare data space and explores how data moves, where it comes from, what it looks like, and who has access to it.

BALANCE(D): A FELDENKRAIS SERIES

Being balanced is a dance between losing it and finding. If you are rigid, this means you cannot respond to an unpredictable environment. If you are too loose, it is hard to stand against gravity. We will explore the contribution of the ground force, ribs, vertebrae, feet, pelvis and the vestibular system through these Feldenkrais Awareness Through Movement lessons. Breath and attunement to your emotional and feeling state will allow you to become more balanced in the largest sense of the word.

Mondays, October 9–30, 4 weeks, 6–7:15 pm, \$80

NEW! GETTING UP AND DOWN: A FELDENKRAIS SERIES

The more ways you know how to get up and down from the floor, the better your health and balance. Fall risk is reduced and confidence soars. In this class, you will explore four ways for going down and getting up. This unique series of lessons will guide you to work within your own comfortable range while being surprised at what you can do. This series does involve getting up and down from the floor. If you are currently able to do this well, you will benefit. If you currently need to lean on a chair to get up, you will benefit. If you currently cannot get up and down from the floor at all, take a pass on this opportunity.

Mondays, November 6–27, 4 weeks, 6–7:15 pm, \$80

SOUNDER SLEEP

Send insomnia to sleep. Bring your pillow, a comfy mat and get ready to learn about sleep. You will discover surprising details about the sleep cycle and explore ways to use your body to calm your mind. You will learn tiny, almost imperceptible movements that can be used during the day to relieve stress and anxiety, and at night to lull one into a relaxed, sleep-ready state.

Wednesdays, October 4–11, 2 weeks, 6–7:30 pm, \$50

BONES FOR LIFE

Posture and alignment are big buzzwords, in exercise and bone health. Unfortunately, the old school stand up straight and throw the shoulders back doesn't really work. Come learn dynamic weight bearing alignment and feeds your bones. Bones for Life is modeled after the uniquely efficient way African water carriers stand and walk. Good for people struggling with movement as well as for those looking to get more out of walking, biking or running.

Thursdays, October 5–19, 3 weeks, 6:30–7:45 pm, \$60

WALK FOR LIFE

There is so much more to quality walking than putting one foot in front of the other. Quality walking is truly quality medicine for the body and soul. This class will use trekking poles to improve posture, alignment and upper back health, and reduce stress on the back, knees and hips. While trekking poles are designed for mountain hiking, we will use the Walk for Life approach for using them anytime you want a better workout while walking. Trekking poles needed.

MEDICAL MARIJUANA: THE HEALTH CARE PROFESSIONAL'S PERSPECTIVE

Although, on June 8, 2016, Governor Kasich signed into law HB 523 which legalized medical marijuana for approved medical conditions, the program will not be fully operational until September 8, 2018. This leaves many of us with questions like: what are the qualifying medical conditions; which doctors will be allowed to recommend cannabis; who will monitor the growers and dispensaries; what are the potential side effects or drug interactions with marijuana; and many other safety concerns for patients and caregivers.

In this class, you have the opportunity to discuss these questions and concerns with a local clinical pharmacist and award-winning author, Dr. Cathy Rosenbaum. She will review the history and legal landscape for medical marijuana in Ohio and the U.S. She will discuss the pharmacological mechanisms of action for the two main cannabis constituents, THC and CBD. Dr. Rosenbaum will list the 21 indications for use in Ohio; various routes of administration; and describe the role of the physician, pharmacist, and nurse in managing medical marijuana in Ohio.

Attention Registered Nurses: Program will provide 2.0 total continuing education contact hours for nurses (0.5 CECH as advanced pharmacology) OBN Approver Unit at the University of Cincinnati College of Nursing (OBN-011-93).

How Online Courses Work

ABOUT ONLINE LEARNING

Online learning is a fun, enjoyable and very productive way to learn. Millions of people are learning online each year. You will engage and get to know your instructor and other participants in the class. You may even make friends.

It's easy. It's fun.

HOW THE COURSE WORKS

It is easy to participate in your online course. After you register, you will be given a web address to go to get into your online classroom. You will use your email address and create a password to gain access.

PARTICIPATE WHEN YOU WANT

You can participate any time of day or evening. The online classroom is open 24 hours a day, 7 days a week. There are no live real-time requirements or meetings. You decide when you participate. For the best learning, participants should log into the course on 2-3 different days of the week.

WHAT YOU WILL DO

For each Unit, you will:

- Access the online readings
- Listen to the audio presentation for the Unit and view the slides
- Take a self-quiz to see how much you have learned
- Engage in written online discussion with your instructor and other participants

The content (readings, audio lectures, slides) and self quizzes are accessible for the entire course, so you can work ahead, or go back and review again, at your convenience.

Community partners with Ed2Go and UGotClass to offer a wide variety of online courses and certificates.

MUSIC & DANCE

FIDDLELING FOR BEGINNERS

Mentoring and coaching have come to be used more frequently in Do you love the toe-tapping excitement of Irish music or American old-time, but never picked up a fiddle before? Rest assured, by the end of this class you'll have a solid foundation on the instrument and a handful of great tunes! Along the way you'll see how easy it is to learn music by ear (no sheet music required), get a taste of music history and theory, and, of course, have fun in the process. Learn how most music is built on simple patterns, enabling you to learn any tune you hear. Explore proper fiddle ergonomics so that you can enjoy a lifetime of playing. This is the class for you if you can't play a tune or don't even know how to hold the instrument and bow.

Instructor: Justin Bonar-Bridges

Wednesdays, October 11–November 15, 6 weeks, 6:55–7:55 pm, \$139

FIDDLELING FOR INTERMEDIATES

This is a continuation of the preceding course. Using the foundational skills and ear training learned in Level I, we'll tackle some trickier tunes and explore techniques that will make your playing shine. If you've already learned some tunes by ear and have a background on fiddle or violin, or you've previously taken Fiddling for Beginners, this class is for you.

Instructor: Justin Bonar-Bridges

Wednesdays, October 11–November 15, 6 weeks, 8–9 pm, \$139

GUITAR FOR BEGINNERS

Explore varying styles of music as you conquer the fundamentals of guitar technique, reading music, and chord study in a group setting. Increase your enjoyment of playing as you establish proper playing techniques. Bring an acoustic (not electric) guitar to all classes and find out that anyone can read music and anyone can play!

Instructor: Kevin Topmiller

Jordan Graff is an expert welder and fabricator, and as a graduate of the University of Cincinnati with a degree in Mechanical Engineering, he has a unique skill set. His education and background have enabled him to not only have the knowledge to design but also the ability to build. After college, he found that metal is not only a rigid, immovable, cold material, but that with the help of heat, force and a little creativity, steel can come alive. Along with his blacksmithing and metal fabrication business, Jordan has been teaching for three years. He believes art can be both functional and sculptural, and when using metals as artistic medium, anything is possible.

20TH CENTURY POETRY

This fall, Kamal brings her expertise to Communiversy in her six-week course, 20th Century Poetry. Throughout this workshop, you will discover the major poets and movements over the last century. It's not all reading and discussion during class time either. You will have the opportunity to write poetry of your own and participate in peer critique. Critique is not as scary as it sounds! Instead, it's the best way to learn and grow as a writer, both by offering comments on the work of others and receiving comments on your own pieces. If you can read poetry, you can critique!

Kamal E. Kimball is a professional grant writer, journalist, and poet. Her work has been published or is forthcoming in Sundog Lit, Bone Parade, Sow's Ear Poetry Review, Zetetic, Kaaterskill Basin Literary Journal, Indolent Books, and elsewhere. She is a member of the Cincinnati DIY Writers, The Ohio Poetry Association, and founder of Fresh Darlings, an online writing community.

METAMORPHOSIS HOLISTIC WELLNESS SERIES

During these three-hour workshops, women will identify where their boundaries are and develop a plan to honor them when dealing with the public, significant others, family and friends.

Whether you attend one or all of these workshops during the series, you will gain a better understanding of yourself. You will have tools in your medicine bag to create a better sense of peace and harmony within yourself, therefore allowing yourself to be more at ease in relationships and work.

Kristy Brandabur, a UC alumna (CECH '14) is the owner of Metamorphosis Holistic Wellness Center in Columbia-Tusculum, which offers services such as reiki, guided meditation, personal training and group fitness to help people be physically, mentally and spiritually healthy.

This Fall, Brandabur will teach a series of three emotional-wellness classes for women at her center.

PHOTOGRAPHY

PHOTOGRAPHY: TAKING IT TO THE NEXT LEVEL

So, you bought a nice camera and you feel a bit overwhelmed with all of the buttons and dials. This course is designed to help you understand the controls of the camera so you can create better pictures. Your pictures will improve and you will have a better understanding of your camera after the first class. In order to apply what you learn, each week you will be encouraged to share 5-10 images of your best work with the class. This is a non-threatening, non-critiquing atmosphere of inspiration for people willing to invest some time and creativity in an effort to make stronger photographs.

Instructor: John Engelman

Thursdays, September 21–October 26, 6 weeks, 6–7:20 pm, \$159

ADVANCED PHOTOGRAPHY

This class will begin with a review of the fundamentals of exposure and lighting and then delve into more advanced techniques designed to inspire your creativity and imagery. Subjects covered will include enhanced natural lighting techniques, lighting with flash, HDR (high dynamic range), panoramas, portraiture, and post processing. You will be challenged to build on the skills you have already. The goal of this class is to make you feel more confident when shooting and to expand your horizons photographically.

RETHINKING CINCINNATI'S "GREATEST GENERATION"

In honor of Veterans Day, historian and local author Robert Miller examines Cincinnati's Greatest Generation and the city's involvement in World War II, a critical period in both our city's and our nation's history.

In his book, *World War II Cincinnati: From the Front Lines to the Home Front*, Miller states that "Cincinnati provided its fair share of citizen soldiers for military service. In 1940, during the first round of the draft, more than eighty-one thousand Hamilton County residents registered with local draft boards." Miller will introduce you to several Cincinnatians who "responded to the demands of World War II in ordinary as well as extraordinary ways." Their stories will provide the opportunity to rethink the past and discuss the meanings of patriotism and heroism.

Each of the people profiled during class appears in *World War II Cincinnati: From the Front Lines to the Home Front*. As part of your registration fee, you will receive an autographed copy of the book.

Robert Miller earned his Ph.D. in History from the University of Cincinnati in 1991. He is a published author of three books, including *World War II Cincinnati* (2014), on aspects of Cincinnati history as well as numerous articles and features. His work on public history projects in the area include the long standing, award-winning museum exhibit "Cincinnati Goes to War: A Community Responds to Total War, 1941-1945," which ran at the Museum Center at Union Terminal from 1991 until 2016. More recently, Miller worked on "Treasures of Our Military Past: 1788 to the Present" in 2015.
