UNIVERSITY OF
Cincinnati

**You've spent years
focused on your career
and raising a family ...**

**Now's the time to
rediscover the
joy of learning.**

**Osher Lifelong Learning
Institute (OLLI) at the University of
Cincinnati offers great classes and terrific
teachers in a relaxed, informal environment —
and you don't have to worry about tests or grades.**

What classes do we offer?

OLLI at UC offers close to 300 classes which are taken by over 1500 members each year. This quarter there are more than 100 classes. Most classes meet for 90 minutes weekly over an eight-week period. As an OLLI member you can choose from a wide assortment of lectures, seminars, field trips and special events.

Who are our teachers?

Many of our moderators are distinguished professors, both active and retired. Other teachers are experts in a variety of fields and include members who want to share their personal passion for a particular subject. There is one common denominator: they teach for the sheer love of teaching.

What are requirements to join?

Everyone age fifty and above can join. *The only prerequisite is a desire to learn.*

What does it cost?

For a single \$80 payment each quarter, you can take as many classes as you like during that quarter. Most people sign up for three courses. That's roughly \$3 an hour – about the price of a cup of coffee at Starbucks. *(If you cannot afford to pay the \$80, scholarships are available. Just contact the OLLI office for information.)*

Extra benefits for OLLI members.

Rediscovering the joy of learning is just the beginning for OLLI members. Consider these other benefits:

- Discounted prices at local cultural events such as: Playhouse in the Park, Cincinnati Symphony Orchestra, College-Conservatory of Music, Cincinnati

Shakespeare Company, Chamber Music Network and others.

- Reduced rates to join the UC Faculty Club and main campus gym/recreation center.
- OLLI sponsored special events include the holiday and spring luncheons and cultural programs such as Gilbert and Sullivan, the US Air Force Band, The Tuskegee Airmen and much more.
- In partnership with Sycamore Senior Center and Tri-Health Seniority take reasonably priced day trips, concerts and tours to events like Riverbend, Music Hall, the Ohio State Fair and Reds games.

Above all, meet interesting and accomplished people who will share with you the many benefits of being an OLLI member.

6149 Towards a Commentary on Stoppard's "Invention of Love" 

Thursdays, 10:35 a.m.-Noon (TUC)

I came to Tom Stoppard's "Invention of Love" as a Classicist -the main Character being A.E. Housman, Professor of Latin, Cambridge University (1911-36). Seeing the play, I was struck by how much Stoppard seemed to expect his audience either to know or to be able to understand and enjoy the play without knowing. I decided to treat "Invention" like a Greek play or a Ciceronian Oration, making a commentary to supply a reading audience with historical and stylistic notes, textual and dramatic, where I thought they might be helpful. The goal: to enhance an understanding of Stoppard's genius. Students should acquire Tom Stoppard's "The Invention of Love", 2nd edition, Grove Press N.Y. 1998.

Prepare to be surprised and get ready for a lively discussion. The second exercise will be an interactive game to see how prices are determined in a competitive market. Bring a pen or pencil. A small calculator will be useful, but not necessary.

8145 San Miguel, Mexico & Cusco, Peru Similar but Different 

Wednesday, May 9, 9:00 a.m.-Noon (SSC)

Mexico and Peru were originally settled by Native Americans of very different cultures, communities, arts and ways of living. By the mid-sixteenth century, the Spanish had conquered most of the indigenous people in Central and South America and established their own cities with strong Catholic religion and rule. We'll look at two different areas occupied by the Spanish: San Miguel de Allende in Mexico and Cusco in Peru, and how each has evolved. Both were built in the traditional Spanish colonial style which is still maintained today. The Cusco area still has a significant number of Incan ruins, especially the unchanged city of Machu Picchu, accessible from Cusco.

Moderator: Cliff Goosmann is a retired digital data storage technical specialist at Storage Technology. He is a member of the Photography Club of Greater Cincinnati and has attended many workshops. He especially enjoys outdoors and traveling photography, and many of his photos can be seen in his travel program presentations.

UC Blue Ash College Parking

Easy access and free parking are great conveniences at UC Blue Ash College. However, the college has clear rules about where we may park.

- Members, moderators and guest speakers may only park in spaces designated with white lines.
- The only exceptions will be for those with handicap placards or plates. They may park in any handicapped location, designated by blue lines.
- Yellow lined spaces are reserved for UC Blue Ash faculty and staff. OLLI members parking in those spaces will be ticketed. The OLLI cannot intercede for those who are ticketed.
