GATE is...

a student-run organization that is interdisciplinary in its membership and workshops. It provides a unique place for networking among graduate students.

a student initiative that started from a need for graduate student training in teaching and expanded to support graduate students pursuing teaching careers. We accomplish this through workshops focused on evidence-based inclusive pedagogies.

part of the Center for Enhancement of Teaching & Learning (CET&L) at UC, which supports teaching and learning across the University.

We’re always accepting new members. For more information visit our website www.uc.edu/cetl/gate or talk to any GATE member.
