Mission

The College of Allied Health Sciences educates and prepares future allied health and other health science professionals to provide high quality service in their respective fields. In conjunction with community-based partners, students achieve clinical skills and learn the values of critical thinking, good communication, teamwork, cultural competence and service learning. The college’s faculty is committed to excellence in teaching, research, service and leadership.

Through a multitude of departments, the College of Allied Health Sciences prepares students for professional and graduate work and practices as:

- Audiologists
- Clinical Laboratory Scientists
- Genetic Counselors
- Magnetic Resonance Imaging Technologists
- Nuclear Medicine Technologists
- Dietitians & Nutritionists
- Physical Therapists
- Research Laboratory Associates
- Sonographers
- Speech-language & Hearing Scientists
- Speech-language Pathologists

…and more.

Community
CCM sits at the heart of the University of Cincinnati campus, within Cincinnati’s vibrant performing arts and media community. CCM enjoys close ties to the Cincinnati Symphony Orchestra, the Cincinnati Opera, the Cincinnati Ballet, Ensemble Theater, key broadcast/media companies and others.

CCM Village
CCM’s $96 million 21st century facility offers a full spectrum of theaters, recital halls, practice studios, “smart” digitally enhanced interactive classrooms, digital broadcast facilities, a 9,640-square-foot scene shop, and a music library with more than 175,000 volumes and recordings.

CCM Faculty
Faculty are a core strength of CCM’s culture: practicing artists, teaching emerging young artists. CCM faculty impart contemporary, relevant and industrially meaningful techniques, traditions and innovations.

CCM Alumni
CCM alumni lead the country and the world in key creative industries and organizations including every 1st-ranked symphony orchestra, opera company, university, production house, and media organization.

- Center for Applied Research and Development (CARD)

Engineering and Engineering Technology

- UC’s College of Engineering is heralded as the founding institution of cooperative education. Under the direction of then Dean Herman Schneider, the college began requiring its students to work and attend classes in alternating periods. This combination proved so successful in preparing graduates for their later careers that more than 1000 schools offer forms of the program today.

- The College of Applied Science was founded as the first school west of the Alleghenies dedicated to technical education; the Ohio Mechanics Institute became a regional technology resource and sponsor of technology expositions that drew upwards of 500,000 attendees and millions of dollars for the Cincinnati economy in the late 1800’s. CAS became part of UC in 1969 and was renamed the College of Applied Science.

Faculty
97% of the College’s professors teaching freshman-level classes have advanced degrees, the highest percentage at any Ohio two-year and community college.

Environment
Location, reduced cost, small class size and campus friendliness continue to make this an appealing learning environment for the region. As our slogan states, Clermont College is bringing the “power of UC…close to home” and is an enthusiastic participant in the life of this region.

Community
Clermont College hosts the Business and Educational Outreach Center for businesses and organizations within the community who wish to enhance their skills in the business world. Local training professionals and Clermont faculty offer bachelor’s and master’s level courses, seminars, workshops and customized training to meet organizational needs.

Strong Partnerships

- Housing the Blue Ash Elementary school and maintaining collaborations among the faculty from both institutions.
- Providing an on-campus day care center for students and space for the Hamilton County Pathways program for young adults with developmental disabilities.
- Offering non-credit courses for 250+ seniors from the Osher Lifelong Learning Institute.
- Working with local businesses through the College’s Professional Development Institute to provide professional development to their employees.
- Partnering with Ethicon and EasterSeal’s Work Resources Center to offer a Technology Awareness Program (TAP) designed to bolster student’s interest in the science and technology fields. Students learn through hands-on activities and participate in sessions at both Ethicon and RWC.
- Working with 14 schools to offer the new dual credit initiative in which high school students can register for credit in chemistry, math, physics and more.
- Managing the Greater Cincinnati Tech Prep consortium that covers 8 counties in southwest Ohio to offer skill-building and college prep academics while encouraging higher education.
