Preventive Services Guide

Humana makes it easier than ever to get the preventive services you need to maintain your overall health. As part of healthcare reform and depending on your Humana health plan, a range of preventive services will be available to you at no cost.

The services listed here will be covered 100 percent when they’re done for preventive care. This means no copayments, coinsurance or deductibles when services are performed by providers in the Humana network. **Note:** You may need to pay all or part of the costs when services are completed to diagnose, monitor, or treat an illness or injury, not as preventive care.

Remember, preventive care keeps you healthy, prevents illness, and detects diseases in the early stages when they’re easier to treat.

**Adult Preventive Services**

Preventive office visits are covered, as well as the screenings, immunizations, and counseling listed below.

### Screenings

- Abdominal Aortic Aneurysm – one time screening for men of specified ages who have ever smoked

Refer to your certificate of coverage for details about all the covered services and benefits levels.

---

This document is designed to provide a general overview of the federal health reform law (Affordable Care Act). It does NOT attempt to cover all of the law’s provisions and should NOT be used as legal advice for implementation activities. We encourage you to seek any professional advice, including legal counsel, regarding how the new requirements will affect your specific plan. For complete details, refer to your plan’s Certificate of Coverage.
Women Preventive Services (includes pregnant women)
