Title: Irrigation Specialist 1

Pay Scale Group: 96G

Essential Function

Under general supervision from a higher level supervisor, maintain irrigation systems and water features. Design, install and repair systems.

Characteristic Duties

1. Daily monitoring and repair of existing irrigation systems. Perform start-ups and winterization of all systems, monitor pH levels of water features.

2. Design new system add-ons.

3. Perform lawn renovations (e.g., grading, seeding, sodding); train groundskeepers as needed.

4. Perform related duties based on departmental need.

Unusual Working Conditions

- Work outside in all weather conditions; work with potentially dangerous equipment and chemicals. May be exposed to dirt, dust, fumes and noise.

Minimum Qualifications

- High school diploma/GED; must have one year commercial irrigation systems experience that includes the ability to read blueprints, make as built-drawings, calibrate and repair a variety of systems. Must be able to lift 60-100 pounds and be able to demonstrate full range of motion for bending, stooping and lifting. Must obtain certification by the Irrigation Association within one year of employment. Must have a current valid driver’s license with an acceptable driving record.
