Classification Specification for Classified Service

Title: Irrigation Specialist 2

Pay Scale Group: 97B

Essential Function

Under general supervision from a higher level supervisor, maintain irrigation systems and water features. Coordinate and evaluate irrigation programming.

Characteristic Duties

1. Daily monitoring and repair of existing irrigation systems. Perform start-ups and winterization of all systems, monitoring pH levels of water features. Design new system add-ons.

2. Operate system equipment and related controls to ensure adherence to specification; perform minor adjustments to equipment.

3. Coordinate activities of workers engaged in irrigation system maintenance.

4. Perform lawn renovations (e.g., grading, seeding, sodding).

5. Perform related duties based on departmental need.

Unusual Working Conditions

- Work outside in all weather conditions; work with potentially dangerous equipment and chemicals. May be exposed to dirt, dust, fumes and noise.

Minimum Qualifications

- High school diploma/GED; must have two years commercial irrigation systems experience that includes the ability to read blueprints, make as built-drawings, calibrate and repair a variety of systems. Must be able to lift 60-100 pounds and be able to demonstrate full range of motion for bending, stooping and lifting. Must be certified by the Irrigation Association. Must have a current valid driver's license with an acceptable driving record.
