Title: Industrial Hygienist 2  

Pay Scale Group: 15

Essential Function

Under general supervision from a designated administrator, recognize, evaluate and control environmental stresses or chemical, physical, biological and ergonomic factors that may impair the safety of students, faculty, patients and staff of the University.

Characteristic Duties

- Ensure that all functions of the University have knowledge of University safety rules, and city, state and federal regulations and standards pertaining to health and safety.
- Ensure that areas are making every effort to be in compliance with health and safety regulations and standards.
- Conduct routine and unscheduled inspections to receive and investigate complaints and to review recorded instances of injury.
- Evaluate areas that have potential health hazards, determine samples to be tested and collect and submit samples to an appropriate laboratory for analysis.
- Review and analyze lab results of materials and initiate remedial action.
- Develop and initiate programs to prevent injury or exposure to health hazards in the university community.
- Design student and employee health and safety training programs including programs to demonstrate the proper use of machinery and protective equipment.
- Maintain effective relationship within the university system and with regulatory agencies to keep abreast of trends in the occupational health and safety field.
- Perform related duties based on departmental need.

Minimum Qualifications

- Bachelor's degree with three (3) years experience; -OR- Associate's degree with five (5) years experience; -OR- seven (7) years experience. Degree must be in Industrial Hygiene, Physical Science or Chemistry. Experience must be in environmental health or related field. Some positions may require Ohio State Certification in all asbestos areas. Some positions may require a commercial driver's license (CDL). If a CDL is required, the employee must have an acceptable driving record.
