Your recruiter is there to be a valuable resource to you in a number of ways. Some key times to contact your recruiter include:

- To remove a posting from the web (This will also remove your advertising.)
- To create a pooled position for student, faculty or staff positions. A pooled position is a repository of eligible candidates for an open requisition. Please note that to complete the hire only one candidate may be attached to a requisition.
- When selecting competencies in Interview Central housed in SuccessFactors.
- When adding a member to your existing search committee
- Any time you have questions regarding the recruitment process

We are happy to assist!
