Neil Armstrong inspired generations of students to study STEM subjects to become aerospace engineers. Neil Armstrong shared credit for his achievement with the interdisciplinary team of Apollo XI. Over 400,000 individuals worked collaboratively to pull off the first moonwalk. It took teamwork, hands-on learning, problem-solving, experimentation, and interdisciplinary collaboration. In this spirit of imagination, innovation, and connection to real-world problem solving, UC is proud to offer the Neil Armstrong UC Forward Innovation Award for Students.

**Bearcat Bond** As a member of the University of Cincinnati, I will uphold the principles for a Just Community and the values of respect, responsibility, and inclusiveness. I will promote the highest levels of personal and academic honesty and aspire continuously to better myself, the Bearcat community, and the world.
