October 25, 1988

To:       College Liaison Committee

From:    Bob Fee

I trust the attached letter from Barb Schooley will be self-explanatory. As Director of our Student Advising Center, she and her staff of graduate students had over 1000 appointments last year, many of which were with students who have either come from your colleges or who will apply to your colleges. The same is true in reverse for those who see students in your own offices.

We would like to ask that you copy this invitation to your faculty, counselors, classified staff, and student assistants who are daily involved in attempting to explain the complexity of UC to students. In some cases our target population may be the members of College Liaison themselves, but most of you know who really are the people who must answer the questions about transfer credit, admissions procedures, degree requirements, and career tracks which keep us occupied daily in putting out brush fires.

Please spread this around your offices quickly, and call Barb Schooley at 65875 if you have comments or suggestions.
