

Raymond Walters/Clermont/Uptown Subcommittee
Meeting Minutes
Thursday March 19th, 2009

- Don O'Meara passed out a revised list of programs and faculty at RWC.
- We were going to get information regarding finances from Jim Plummer, but he has been side-lined. Dean Newrock will contact Jim when he starts feeling better. Karen Sullivan has contacted Larry Johnson, and they will send a replacement for Jim until he is well enough to return.
- Under the One University model, we should be able to "shuffle" faculty around. This is troublesome to some because the regional campuses have a unique nature to them because the faculty works together as a group. The concept of pulling faculty out and moving them around would make it harder for people to work together.
- Regarding RPT issues, discussion surrounds 2 track RPT documents -- Research and Teaching tracks. These tracks would eliminate many problems. Kent State has the 2 track RPT system. .
- We need to discuss questions before we bring in someone from another university to talk about their models and how they handle their budget.
- Larry Johnson will send out his model to Don O'Meara and Jim McDonough.
- Names will be given to Dean Newrock for people from Kent, Ohio University and Miami that we can talk to.
- We are collecting all the documents which will be used in our report to the Steering committee.

Next meeting will be on Thursday April 2nd, 2009 at 7:30am in Van Wormer, Room 220.
