

Darwin Bicentennial Seminars at Ohio University

**THE OHIO CENTER FOR
ECOLOGY &
EVOLUTIONARY STUDIES
AT OHIO UNIVERSITY**
presents.....

THE 2009 OCEES DARWIN LECTURE

Dr. Nina Jablonski will present “*The evolution of human skin and skin color*” featuring biological and cultural aspects of human skin - a highly visible and excellent example of evolution by natural selection acting on the human lineage.

Dr. Jablonski is internationally known for her work on primate biology, culture and language and is Professor and Chair of the Department of Anthropology at the Pennsylvania State University.

The Darwin Lecture will celebrate his 200th birthday on February 12th at 4:10 pm.
For the venue and further information visit the OCEES website: www.ocees.ohio.edu/

THE 2009 OCEES KITZMILLER LECTURE

honoring the group of people who established that intelligent design is creationism.

Dr. Kevin Padian will present “**Darwin, Dover and intelligent design**” featuring his experiences with the Kitzmiller vs. Dover court case.

Dr. Padian is Professor of Integrative Biology and Curator in the University of California Museum of Paleontology, Berkeley.

The Kitzmiller lecture will be on April 6th, 2009, at 4:10 pm.

For the venue further information visit the OCEES website: www.ocees.ohio.edu/

THE OHIO CENTER FOR ECOLOGY & EVOLUTIONARY STUDIES

In 2006 the Ecology and Evolutionary Biology faculty and students created OCEES - the **Ohio Center for Ecology & Evolutionary Studies at Ohio University**. The interdisciplinary learning and research community at Ohio integrates cutting-edge science and technology with undergraduate and graduate education. The center supports graduate research fellowships, the Undergraduate Research Immersion Program (UGRIP) offering research engagement of undergraduates beginning in their freshman year, and sponsors two annual campus science seminars the *Darwin* and the *Kitzmiller* Lectures. For further information visit the OCEES website: www.ocees.ohio.edu/
