About General Motors

General Motors (NYSE: GM), the world's largest vehicle manufacturer, designs, builds and markets cars and trucks worldwide, and has been the global automotive sales leader since 1931. GM employs about 355,000 people around the world.

Founded in 1908, GM today has manufacturing operations in more than 30 countries and its vehicles are sold in about 200 countries. GM cars and trucks are sold under the following brands: Chevrolet, Pontiac, Buick, Oldsmobile, Cadillac, GMC, Saturn, Hummer, Saab, Opel, Vauxhall and Holden. GM parts and accessories are marketed under the GM, GM Goodwrench and ACDelco brands through GM Service and Parts Operations.

In addition, GM operates one of the world’s largest and most successful financial services companies, GMAC, which offers automotive, mortgage and business financing and insurance services to customers worldwide. GM’s OnStar subsidiary is the industry leader in in-vehicle safety, security and information services. GM’s other major subsidiaries are Hughes Electronics Corp., GM Locomotive Group and Allison Transmission Division.

As part of its global growth strategy, the GM Group includes alliances with Fiat Auto SpA, Fuji Heavy Industries Ltd., Isuzu Motors Ltd. and Suzuki Motor Corp. GM also has strong technology collaborations with Toyota Motor Corp. and Honda Motor Co., and vehicle manufacturing ventures with Toyota and Renault SA. General Motors' global headquarters is based in Detroit, Michigan.
