
Focus on Current
Practice: What we know,
what we need to know

Tuesday, December 5, 2006

What we know.....

■ Monday

- What we know/don't know – Paul Schulte
- Overview of Institutional Perspectives
- Overview of practices
- Nano-issues along the life cycle

■ Tuesday

- Focus on what we know
- Occupational settings
- Nanoparticle Occupational Safety and Health Consortium
- ICON report findings

What we need to know.....

- Industry forum – challenge to participants to exchange information on what is needed, what works, what doesn't
- End with informal discussions – Tech Talks
 - Ethics/medical issues
 - Controls/PPE
 - Measurements
 - Risk/hazard communication
 - Biocompatibility
- **REQUIRES YOUR INPUT!!**

Today's presentations

- Matt Hull – Risk Characterization and Management
- Bill Kojola – Worker Training
- Dan Japuntich – Filtration and Respirators
- Doug Trout – Medical Evaluations/Surveillance
- Mark Methner – Hazard Evaluation: exposure measurements
- Michele Ostraat – Industry Nanoparticle Occupational Safety and Health consortium update
- Gina Gerrizen – ICON survey of Risk Management Practices
