SECTION 02100D - SITE CLEARING AND GRUBBING

A. All objectionable growth as determined by a qualified representative of the University shall be stripped and promptly removed from University property.

B. Removal of trees and shrubs shall include the removal of stumps and roots greater than 3 inches in diameter. Grubbing in open areas shall include removal of stumps and 3 inch roots to 2 feet below finish grade elevations.

C. Poisons or chemical defoliants are prohibited.
