UC Corrections Institute presents

**Core Correctional Practices**

Core Correctional Practices is a two day training that instructs correctional workers on the core skills needed to support cognitive behavioral programming. The training is relevant to direct care, security staff, and treatment staff. Specific topics to be discussed include: (a) a brief description of the principles of effective interventions (b) an overview of the core correctional practices (relationships skills, effective use of reinforcement, effective use of disapproval, effective use of authority, prosocial modeling, cognitive restructuring, social skills training and problem solving skills), (c) practice of each of the core correctional practices occurs and implementation strategies are discussed, (d) principles of an effective behavior management system is emphasized. This training may be combined with the Cognitive-Behavioral Interventions training for a three day training that additionally trains staff on how to facilitate a skills group for offenders. There is a training-of-trainers is also available for those trained on the UCCI training.

**END USER**

The end user session is one/two/three days of training for a maximum of 30 trainees.

**TRAIN-THE-TRAINER**

The train the trainer session is three/four days of training for a maximum of 12 trainers. To qualify for as a candidate for this session, the trainee must have taken the initial end user training and delivered at least one full round of the Core Correctional Practices.
