**Health Service List**

**Volunteer guidelines:**
- Look for opportunities that genuinely interest you.
- Read through each website before contacting the volunteer coordinator.
- Health related volunteering should be viewed as a means of career exploration and a way to help others - NOT as a way to receive letters of recommendation.
- While it may not be necessary to commit to several hours per week, be prepared to commit long-term (at least several months).
- You are representing not only yourself but also pre-medical students and the University of Cincinnati – take pride in the work you do.
- Keep a log of the dates & hours that you volunteer along with a few notes about your experiences – this will come in handy when you apply to professional schools.
- Have fun!
