What resonated with you after watching the “Mitigating Bias” webcast?

#1 Mitigating Bias Review
How to Outsmart Your Own Unconscious Bias

“The human brain is a remarkable achievement in evolution. Unfortunately, the brain activity that kept the human species alive for millions of years is the same brain activity that keeps us from achieving equality today. Author, speaker and CEO, Valerie Alexander, explains how the human brain instinctively reacts when encountering the unexpected, like saber-toothed tigers or female tech execs, and proposes that if we have the courage to examine our own behavior when faced with the unfamiliar, we can take control of our expectations, and by doing so, change the world.”

– Valerie Alexander
