

University of Cincinnati Deep Cleaning and Sanitizing
Our Housekeepers Need Your Help

May 12, 2020

During the remote learning period, **UC Housekeeping took the opportunity to deep clean and sanitize** every building using cleaning agents approved by the Environmental Protection Agency for killing the COVID-19 and SARS COV 2 viruses.

Items and areas cleaned included furniture (chairs, tables, desks, etc.) * door handles and plates * light switches * elevator buttons * accessibility buttons and plates * vending machine buttons * ledges and handrails * windowsills and trash/recycle cans as well as all carpets vacuumed.

All restrooms were power washed and sanitized throughout, including every handle, counter, sink, partition, door, floor, etc.

Now, our housekeepers need your help to maintain community health. Help us to help our entire campus community by

- **Daily cleaning** and dusting your personal workspaces, including office spaces, labs and conference rooms. **We will deliver cleaning kits to all 370 mail locations so you have the cleaning materials needed.** **IF YOU NEED MORE CLEANING MATERIALS AT ANY TIME, CONTACT “Work Control”** for having supplies refilled in classrooms and for business offices, supplies should be filled by the stockroom or by ordering with the UC vendor GBex or a preferred source.
- **Because of the added workload on Housekeepers, please empty your office trash cans / recycle containers into larger bins to be placed on each floor.** Our custodians will then regularly empty these larger containers.

UC Housekeepers will continue to clean high-traffic areas and commonly used touch points daily, such as restrooms, elevators, stairwell railings, lobbies, and classrooms. We will sweep and vacuum non-common area floors once every other week.

UC Housekeeping will also:

- Install an additional 1,000 hand sanitizer stations throughout campus, located at building entrances and elevator lobbies.
- Place paper towels and disinfectant spray in each classroom for students and faculty to wipe chairs, desks and workstations.
