

# Lock It Down with Strong Passwords!

Your password serves as the gateway to your digital life; fortify it to ensure your safety and the security of UC.

**Prioritize Password Length:**  
Longer passwords are more secure.

**Incorporate Complexity:**  
Include a variety of characters while still prioritizing length.

**Leverage Multi-Factor Authentication:**  
Enable two-factor or multi-factor authentication for added security.

**Exclude Personal Information:**  
Refrain from using easily guessable or publicly accessible details.

**Utilize a Trusted Password Manager:**  
Employ a reputable password manager to securely manage your passwords.
