

TRANSFER ARTICULATION AGREEMENT

Sinclair Community College, Associate of Science, Biology
to

University of Cincinnati, College of Arts & Sciences, Bachelor of Science, Biology

Originating Institution: Sinclair Community College Degree/Program: Associate of Science / Biology	
Target Institution: University of Cincinnati / College of Arts and Sciences Degree/Program: Bachelor of Science / Biology	
Introduction: This agreement details the <u>applicability</u> of courses from the Sinclair Community College AS Biology to the UC BS Biology in the College of Arts and Sciences. As a public institution governed by the Ohio Department of Higher Education, UC complies with the Ohio Transfer Module (OTM) and the Transfer Assurance Guides (TAGs). Students who complete the AS Biology at Sinclair Community College have satisfied the UC General Education requirement.	
Articulation Overview: Graduates from Sinclair Community College who have followed the prescribed program and are accepted into the UC College of Arts and Sciences will enter in the third year of the BS Biology degree.	
Admission Criteria: *Note: completing the courses on the appendix below does not guarantee admission to the BS Biology program. Minimum GPA: 2.0 BS Completion: Completion of this program June require more than four semesters to complete due to prerequisite requirements and the order in which required courses must be taken and are offered. UC academic advising staff will work with each transfer student to develop the most expedient pathway to graduation. Admission Period: Sinclair Community College students must be admitted to the UC College of Arts and Sciences during the duration of this agreement (i.e. between June 2020 and June 2023).	
Agreement Execution Date: June 2020	Agreement End Date: June 2023

EXECUTION, DURATION AND REVIEW OF AGREEMENT:

This agreement becomes effective upon its signing by the Deans of both Colleges and will remain effective for three years. At the end of this time, the agreement will be reviewed and June be renegotiated. Sinclair Community College and the UC College of Arts and Sciences agree to keep one another informed as program changes affecting the agreement occur. The Deans of both Colleges will agree upon any future additions and/or amendments to this document in writing.

This agreement will be reviewed on an annual basis and is subject to change due to revisions in program curriculum.

Sinclair Community College students are encouraged to work closely with their academic advisor to monitor possible changes.

SEE ATTACHED APPENDIX FOR COURSE EQUIVALENCIES AND SAMPLE TRANSFER DEGREE MAPS.

-------------------------------------	-------------------------------

The following suggested course sequence includes all course requirements for this articulation agreement (e.g. courses required for the Sinclair Community College AS Biology and remaining UC courses for the BS Biology). You should consult with an academic advisor each semester to ensure you maintain appropriate degree progress and are fulfilling all requirements for the agreement. Course sequencing below assumes a fall start date. If starting the program during any other term, please consult with your academic advisor.

For details beyond course planning, please consult with your academic advisor or contact credeval@uc.edu to view the full agreement.

Curriculum at Sinclair Community College & University of Cincinnati Equivalencies/Use in Program

Semester 1

	History Requirement (HIST)	3
	Free Elective	3

Genetics (BIOL 2083) is required for all majors and is a prerequisite for Cell Biology (BIOL 2085C).

Sinclair Community College students who are considering health or the cell molecular field should take Cell Biology (BIOL 2085C). This course can be used towards one of the upper level classes including the lab; this course only offered in the spring.

Students wishing to take Ecology & Evolution (BIOL 2084C) should take Genetics (BIOL 2084) in Spring Semester.

Students wishing to take all three sophomore courses [Genetics (BIOL 2083), Ecology & Evolution (Biology 2084C), and Cell Biology (BIOL 2085C)] should take either Ecology & Evolution or Cell Biology in their junior year. This third course will be counted as an upper-level elective with lab.

Organic Chemistry (CHEM 2040, 2040L, 2041, & 2041L) are recommended for students interested in applying to professional schools such as medical, dental, veterinary, optometry, or podiatry, or graduate school in the biological sciences.
