

University of Cincinnati
Transfer Articulation Agreement
Owens Community College / UC College of Allied Health Sciences
Health Information Management / Bachelor of Science (Distance Learning)
Addendum

Originating Institution: Owens Community College Degree/Program: Associate of Applied Science Degree in Health Information Technology
Target Institution: University of Cincinnati – College of Allied Health Sciences Degree/Program: Bachelor of Science in Health Information Management (Distance Learning)

This document serves as an addendum to the original articulation agreement described above, executed September 1, 2014 and expiring September 1, 2017. This addendum confirms that Owens Community College and UC College of Allied Health Sciences staff have reviewed the curriculum included in the original agreement and determined that all coursework remains the same and that curriculum changes are not needed. Therefore, the original agreement is extended, per the language below.

EXECUTION, DURATION AND REVIEW OF AGREEMENT:

This agreement is in effect until such time as significant program and coursework changes in either college require that it be rearticulated. Minimal changes in coursework will not require a new articulation agreement to be developed, but will require notification to the other party in the form of a dated memorandum. The Health Information Management program in the College of Allied Health Sciences at the University of Cincinnati and the Health Information Technology program at Owens Community College agree to review this document annually.

Owens Community College graduates are encouraged to work closely with their academic advisor to monitor possible changes.

Catherine Ford 6/14/17
