

Transfer Summit (STEM) Minutes
Sinclair College (Courseview Campus)
10/26/18

- Introductions – Kimberly Collins (Sinclair)
- Purpose of Transfer Summits and Overview – Donnie McGovern (UC)
- ODHE Initiatives (3+1 Programs) – Carolyn Haynes (Miami U)
 - a) Carolyn Hayes has been tapped to co-chair a state-wide committee on the expansion of 3+1 across Ohio
 - b) ODHE will be pushing this initiative in the near future
 - c) More info on initiative is attached
- Ohio Guaranteed Transfer Pathways (OGTP) Overview and Update
- College Biology and Chemistry presentation / Round Robin Discussions
 - a) Common theme – while the approved Biology OGTP provides ‘possible’ major map, it may not be the best option for students due to TAG issues (Org Chem has no TAG, for example)
 - b) Some OGTP pathways actually create a disadvantage for transferring students, particularly for students who self-advise (CCP, for example)
 - c) Identified solution: Individual bi-lateral agreements (and strong academic advising) are encouraged to help alleviate the burden students may face
 - d) Solution is good for our regional campuses, but concerned that this will be available on the ODHE website, without context or recommendations
