

UNIVERSITY OF CINCINNATI

BASIC FACT SHEET

FALL 2017

HISTORY IN BRIEF

The University of Cincinnati, Ohio's premier urban research university, traces its origins to 1819. In that year both Cincinnati College and the Medical College of Ohio were chartered. In 1870, the City of Cincinnati established the University of Cincinnati, which later absorbed the two predecessor institutions. In 1906, the University of Cincinnati created the first cooperative education program in the world. For many years, the University of Cincinnati was the second oldest and second largest municipal university in the country. In 1968, UC became a "municipally sponsored, state affiliated" institution, entering a transitional period culminating on July 1, 1977 when UC joined the university system of Ohio. Today, the University of Cincinnati is classified as a Research University (Very High Research Activity) by the Carnegie Commission, and is ranked as one of America's top 35 public research universities by the National Science Foundation. U.S. News has ranked UC in the Top Tier of America's Best Colleges; The Chronicle of Higher Education has called UC a "research heavyweight," and UC has consistently been named a "green university" by Princeton Review. The New York Times, Forbes, Delta Sky and Travel + Leisure magazines have highlighted UC as one of the world's most beautiful campuses. Most recently, the Sept. 13, 2015, New York Times Magazine contained an eight-page spread of images on the university's architecture, calling the dramatic campus renovation of the past quarter century "the most ambitious campus-design program in the country."

U.S. News & World Report Rankings

In September 2017, the University of Cincinnati was again named in the Top Tier of the country's "Best National Universities," **placing at 133** in the special issue carrying the 2018 rankings. UC is ranked at **63 among top public universities**.

Among the nation's elite for co-op and internships: UC's overall emphasis on experiential learning earned the university its spot on the short list of the nation's **top 20 schools** for co-ops and internships. UC students **earn a collective \$65 million annually**, working in about 6,000 co-op placements for about 1,800 local, regional, national and international employers, including Apple, Boeing, Disney, Duke Energy, Fisher Price, General Electric, HBO, Kroger, NASA, Nike, Toyota and many more.

In addition, UC has numerous programs ranked among the top 100 public universities in the nation. And UC is listed among national universities with substantial **economic diversity** as measured by the percentage of undergraduates (38 percent) receiving federal Pell Grants for low-income students.

Importantly, UC is also listed among those national universities with a **healthy retention rate** (87 percent) for the four-year period tracked by these rankings. (UC's current retention rate is now actually higher - at 88 percent.)

In the U.S. News global rankings (released in October 2016), UC placed at **No. 198 globally**. The ranking is based on the institution's global and regional research reputation, publications, books, conferences and more.
