The following information shall be included in specifications prepared for use on all University of Cincinnati projects. This information is supplemental and not intended to be a complete specification.

GENERAL STANDARDS

General Criteria
General Criteria - Partitions shall be solid plastic, polymer resin, floor-mounted and overhead braced and conform to NFPA 286 standard.

Product Coordination
Submittals - Provide and submit shop drawings and product literature indicating compliance with University requirements and coordination with existing conditions.

Sustainability Requirements
Submittals - List recycled materials used as product raw materials. Provide percentage amounts in relation to completed product.

PRODUCT STANDARDS

Product Manufacturers
The “Basis of Design” is HDPE panels by Scranton Products.

Product Requirements
Panel Material – All panels, doors and pilasters shall be high density polyethylene (HDPE) with homogenous color throughout. Panel thickness shall be 1” minimum with eased edges.

Panel Colors – Dark colors are recommended for all panels, doors and pilasters. Color selections shall be reviewed and approved by the P+D+C Project Manager.

Product Accessories
Pilaster Shoe – Pilaster shoes and sleeves shall be manufacturer’s standard plastic or Type 302/304 minimum 20 gage stainless steel.

Door Hinges – Door hinges shall be continuous, stainless steel, self-closing type.

EXECUTION STANDARDS

Construction & Installation
Wall Anchors – All wall anchors must be mechanically fastened to masonry or gypsum/plaster wood blocking. Expansion anchors shall not be permitted.
