The following information shall be included in specifications prepared for use on all University of Cincinnati construction and renovation projects. This information is supplemental and not intended to be a complete specification.

GENERAL STANDARDS

General Criteria
Design criteria are as follows:

1. TAB contractor shall be AABC or NEBB certified.
2. Balancing contractor shall be independent from the installing contractor.
3. On renovation projects, balancing contractor shall take readings before the start of construction and report to the UC Project Manager.
4. Specify sufficient TAB devices, as part of the design documentation, to properly serve the TAB objective.
5. Check with UC Project Manager, for status and application of the University’s Commissioning Standard and additional TAB criteria.
