CVG Airport's priority has always been creating the safest way to travel. We are open for you. Across every area of the airport, we have bolstered our cleaning efforts to enhance your travel experience. We have updated some of our procedures to ensure a safe and healthy experience for everyone.

BEFORE YOU ARRIVE AT THE AIRPORT

Upon entrance to CVG Airport and any airport facility, you attest to the following:

- I am currently not running a fever above 100.4° or using medication to lower a fever.
- I am not experiencing shortness of breath, cough or other respiratory illness.
- I have not had contact without PPE with a person confirmed or suspected of having COVID-19.

WHAT TO EXPECT AT THE AIRPORT

- CVG is requesting all passengers and employees wear masks upon entering the airport.
- Social distancing is requested throughout the airport, including in any lines.
- Plexiglass guards will be up at most ticket counters, gate desks, and concessions.
- Sanitizer dispensers have been placed throughout the airport.
- Escalators and moving sidewalks may be paused to conserve energy while passenger traffic is low.
- Some restrooms and gates may be temporarily closed to ensure our high standard of cleanliness is maintained during low volume traffic.
- Rigorous cleaning regimens have been enhanced. More detail on this can be found at [CVGairport.com/FlyHealthy](https://www.cvgairport.com/flyhealthy).
- All parking products have been consolidated to the CVG Terminal Garage. The CVG ValuPark, CVG Economy Lot, and CVG Parking Valet products are temporarily closed to minimize shuttling, ensure social distancing, and continue offering convenient, safe, and healthy parking for all passengers and employees. Pricing has been reduced at the CVG Terminal Garage to a \$10 daily rate for passengers. As passenger volume increases, opening additional lots will be evaluated.
- The TSA security checkpoint lanes are 6 feet wide, and passengers are requested to remain 6 feet from the party in front and the party behind, which will create a longer line, but a

safer one. Plexiglass guards have been placed at each TSA podium. All TSA officers will be wearing face masks and gloves. More detail on this can be found at [CVGairport.com/FlyHealthy](https://www.cvgairport.com/FlyHealthy).

TRAVELER RESPONSIBILITIES AT THE AIRPORT

CVG requests all employees, passengers and visitors wear face masks while at the airport and respect social distancing guidelines throughout our facilities:

- Walking throughout the airport
- In any lines (ticketing, security, concessions, gates, etc)
- At the gates when seated
- In concessions and eating areas

AIRPLANE VIEWING AREA IS REOPENING

The AVA will reopen on Friday, May 22, 2020 and maintain its normal hours of 8 am - 10 pm. The play area and portable restrooms will remain closed.

There are many additional updates about concessions, airline contact information, and more on [CVGairport.com/FlyHealthy](https://www.cvgairport.com/FlyHealthy).

We look forward to seeing you when you are ready to travel.
