ARTS & HANDICRAFTS

NEW! WATERCOLOR IN A DAY

Come with a photo and leave with a portrait. During this class, you will learn the fundamentals of drawing and painting with watercolors. Our instructor will demonstrate and explain the step-by-step process of creating a likeness to your personal portrait. Individual attention is emphasized. All supplies will be provided: archival paper, artist grade paint, brushes, and all incidentals.

Instructor: Jean Vance
Sat., February 25, 10 am–4 pm, $69, plus $40 materials fee, payable to the instructor, #3156

DRAWING MANDALAS

Expression through Circular Designs. Learn to create and design your own mandalas, circular designs created through the use of repeated images and geometries. In one session, you will learn the basics of circular geometry; how to divide spaces; and how to use that knowledge to create wonderful artworks to treasure and share. Use the skills and supplies you acquire in the class to create as many designs as you like. No previous art experience is necessary. If you can, please sign up 5 days in advance so instructor can order supplies at the best price.

Instructor: Alisa Strauss
Wed., February 1, 6:30–9 pm, $29, plus $20 materials fee payable to the instructor, #3718

DOODLING MASTERPIECES

Tangle art. Meditative drawing. Zentangle®. Pattern drawing. All are names for basically the same thing: making artistic drawings out of patterns. In this class you will learn how to combine simple forms, circles, lines, and dots into eye-catching patterns. Next, you will learn how to use those patterns to create unique pieces of art. No drawing skills required. People of all skill levels are invited to join this class to experience how enjoyable making artistic illustrations from patterns can be.

Instructor: Alisa Strauss
Sun., February 26, 1:30–4 pm, $29, plus $15 materials fee payable to the instructor, #3154

RAGS TO RICHES

Do you spend hours saving Pins for later? Have you collected various items that will make a great project someday, but don’t know where to begin? Bring them to our Rags to Riches class! You will learn to transform t-shirts, leggings, magazines, greeting cards, and even plastic bags into useful projects and just in time for holiday gift giving! What we can’t up-cycle, you will learn where to recycle. Along the way, we will cover basics of very simple knitting and sewing.

Instructor: Anne Skove
4 weeks, Wednesdays, March 1–March 22, 7–9 pm, #6626

Creating Glass Art

Instructor: Mary Jane Riggi
Location: All classes held at the Artist’s Glass Studio, 2214 W. North Bend Road, Cincinnati, Ohio 45239

Supplies: Some studio tools may be available for use by students; others may be purchased from the instructor. Registered students must call a few days in advance to discuss project ideas and tools.

LEAD PANEL STAINED GLASS

In a one day class learn the “old” method of stained glass, assembling with lead channel instead of copper foil. For those with stained glass experience and those new to the craft. Learn glass selection, cutting, assembly and soldering techniques. Patterns available from instructor (most about 11”x17”).

Sat., January 28, 10:30 am–4:30 pm, $75, plus $75 materials fee payable to the instructor, #3677

MOSAICS

Make a stunning mosaic tray, table top, panel or project of your choice using the direct mosaic method. Learn tips on glass selection, cutting, gluing and grouting. Bring your own item and add a mosaic design to it or choose from items available at the studio. If you’ve got some old cups or plates, bring them and a hammer to turn them into works of art.

Sat., February 18, 10:30 am–4 pm, $69, plus $69 materials fee payable to the instructor, #3711

STAINED GLASS FOR BEGINNER

Begin with the basics of building a Tiffany style panel using the copper foil method. Learn types of glass, glass cutting techniques, grinding, foiling, soldering and framing a panel. Complete a panel of your choosing (sizes vary; average is 11 x 17”).

Sat., March 4, 10:30 am–4 pm, $75, plus $75 materials fee payable to the instructor, #3500

GLASS FUSING PRIMER

Focus on fundamentals of kiln forming and warm glass work as you create your own fused glass pieces. Popular choices of items include candlesticks, plates, bowls or jewelry. Learn about glass cutting, setting up a kiln, shelf preparation, glass compatibility, annealing cycles and slumping. You’ll prepare several pieces for firing; then return to the studio 2 weeks after the class to retrieve your fused glass pieces.

Sat., March 18, 10:30 am–4 pm, $69, plus $69 materials fee payable to the instructor, #3707
ASTRONOMY

Location: All classes are held at the Cincinnati Observatory Center, 3489 Observatory Pl, Cincinnati, OH 4520.

NEW! ASTROPHYSICS FOR THE LAYPERSON

From the big bang to apple pies, you will learn how astrophysicists study our skies. Ever wonder what happens around black holes, or how we know there are other solar systems like our own, or where all the extra stuff in our galaxy is? In this class we will cover a variety of topics to give an overview of how modern astrophysics is done including: dark matter, black holes, the cosmic microwave background, star formation, etc. You will gain a basic understanding of each of these subjects which we hope will foster an interest in further study. This course is open to students of all skill levels regardless of scientific background and is taught by a professional astrophysicist.

Instructor: Zachary Long
Wed., February 22, 7–9 pm, $29, #1242

BEHIND THE SCENES AT THE OBSERVATORY

Look to the heavens through the oldest continuously used telescope in the world; explore the depths of the 1873 observatory including its attic and basement; and learn why President Adams laid the observatory’s original cornerstone in 1843. Hear the fascinating history of the founding of the observatory; investigate how the 19th century astronomers determined time for the city of Cincinnati; discover why the observatory was designated a National Historic Landmark; and find out what is in store for the future. The Moon will be viewed through the telescope following the program, weather permitting.

Instructor: John Ventre
Mon., February 6, 7–9 pm, $29, #1207

BINOCULAR ASTRONOMY

Sure, binoculars aren’t exactly the Hubble Space Telescope, but they are actually quite capable astronomical instruments that provide a unique and refreshing view of the Celestial Heavens. When both of your eyes get involved with seeing, a synergy takes place in your brain that enhances the image beyond what a single retina can deliver. Even common binoculars will reveal the constellations more intimately, the phases of Venus or the moons of Jupiter. There are even dozens of “deep sky” objects (galaxies, nebulae, and such) visible in inexpensive binoculars. Large or small, name brand or not, bring along your binoculars; we might be able to do some viewing if the weatherman permits. If you are in the market for binoculars and would like to find out what kind would be most practical for you, come join the party. We’ll talk quite a bit about the sky as well - there’s a lot more up there than you might realize!

Instructor: David Bosse
Mon., January 30, 7–9 pm, $29, plus $2 materials fee payable to the instructor, #1042

CONSTELLATIONS OF THE SEASON

There are more stars in the sky than you can ever count; but you’ll see that finding your way around the sky has never been more interesting. Explore the imaginative figures we call constellations as you learn to use a planisphere to find any constellation at any given time and date. Further appreciate the night sky as we share some of the stories of the stars - how these clusters were identified, named, and achieved fame. Weather permitting, we will go outside to find many of the brighter constellations and you may also look through the observatory telescope.

Instructor: Dean Regas
Tues., February 21, 7–9 pm, $29, plus $3 materials fee payable to the instructor, #1044

OPTICS: INSIDE THE TELESCOPE

Looking through a telescope is always fun; but did you ever wonder how the darn thing works? How are magnification and focus achieved? Why is the view upside-down in an astronomical telescope, but upside-right in binoculars? And is bigger really better? We’ll answer these questions and many more as we explore the inner workings of the “magic tube.” Fun, visually dramatic experiments will make the mysteries of lenses and mirrors crystal clear, even for those who are not friendly with physics. We’ll also peek inside a variety of working telescopes, and, weather permitting, view the heavens through some of them.

Instructor: Dave Bosse
Tues., March 14, 7–9 pm, $29, #1225

BUSINESS & CAREER

From Inventing to Licensing, sign up for both of Ryan McAleer’s classes for one discounted price, $46, #1184

INVENTING THE NEXT BIG THING

So you have an idea for the next big thing...now what? Launching a new product or bringing an idea to market can be overwhelming. This class is designed to cover the basics of what every inventor should know, from idea development through commercialization. Topics will include: ways to protect your idea; understanding patents; packaging and staging your product; selling, licensing or starting your own company; plus an exploration of marketing venues. Join us and find the encouragement and motivation you need to get your idea off the ground.

Instructor: Ryan McAleer
Tues., January 24, 6:30–8:30 pm, $29, #1118

LICENSING HELP & INVENTING

You’ve invented the next big thing and you believe it will make you rich, what do you do? How do you license and bring that big idea or thing to market? Getting your product on the shelves in a retail store is by far the hardest part of any product venture. Licensing your invention is necessary and can significantly increase the money you make on your product. There are many different considerations and terms that need to be negotiated when licensing a product. In this class we will cover the ins and outs of proper product licensing, including how licensing works, royalties, retailer expectations, and product development.

Instructor: Ryan McAleer
Thurs., February 2, 6:30–8:30 pm, $29, #1161
GETTING STARTED IN VOICE ACTING
Are people always telling you that you have a great voice? Do you often find yourself listening to your favorite audiobook, commercial or cartoon character and thinking, “I could do that.” This fun and empowering two-hour Introductory Class covers the different types of voiceovers and what tools are needed in order to find success in the industry. You’ll be coached as you perform a real voiceover script and be recorded so that you can receive a professional voiceover evaluation later. After class you will have the knowledge necessary to help you decide if this is something you’d like to pursue. For ages 18 and over. Taught by a professional voice actor from the Voice Acting Training Company, Voices For All.

NEW! CINCINNATI’S “GREATEST GENERATION”

This course is designed for anyone who has a basic knowledge of events during the era of World War II and wants to learn more. The wartime challenges facing Cincinnati, as a Midwestern producer of war goods, as a vital transportation center (Union Terminal), with a racially and ethnically diverse population, mirrored those that faced our nation. In this way, Cincinnati’s story can serve as a viable case study in this effort to rethink the past. The course will examine the lives of several Cincinnatians, all unsung heroes in their own way.

Join in this fresh and innovative examination of one of the most critical periods of our city’s and our nation’s history.

**Instructor:** Bob Miller

Tues., February 7, 6:30–8:30 pm, $29, #8152

NEW! WALKING CINCINNATI

Walking Cincinnati (2015) by Danny Korman and Katie Meyer is the first book in decades for local history fanatics and adventurers wanting a more hands-on approach to Cincinnati history and culture. This guide walks readers through the city’s renowned historical, architectural, and culinary sites. The character of our region comes alive through Walking Cincinnati’s focus on human-interest, and gives the readers surprise after surprise in its 32 walks. It highlights architecture, art, and food, as well as some of Greater Cincinnati’s darker side. Tales and locations of crimes, hauntings, illegal casinos, mob bosses, and brothels astonish readers and unveil secrets of the city that traditional local history books typically overlook. This winter, Danny Korman, will walk you through the book and how it came together, pointing out some of his favorite local spots and the challenges of writing.

Course fee includes an autographed copy of Walking Cincinnati (2015).

NEW! A STROLL DOWN MILLIONAIRE’S ROW

Take a step back in time as we visit the Dayton Street Historic District, once known as “Millionaire’s Row.” The district is listed on the National Register of Historic Places. Spend the day at the Hauck House, the only building open to the public on this historic district. Built in 1870 and owned by Cincinnati’s beer baron, John Hauck, this 19th century Italianate-style home amazes all who pass through. We will tour the museum on the first floor while members of the Cincinnati Preservation Association and Keep Antiquing! Radio show host, Frank Loomis, share the history and uniquely preserved structure of this house, built in the Golden Age of Cincinnati.

For lunch, take a ride on the Cincinnati streetcar through Over-the-Rhine while Frank discusses the revitalization of this area. Then, enjoy a delightful lunch at a Revolution Rotisserie & Bar, just a block away from the beautiful Washington Park. We will return back to the Hauck House for an enjoyable afternoon of more learning.

**Instructor:** Frank Farmer Loomis

Sat., March 25, 10 am–3:30 pm, $59, #4138

NEW! WRITER’S WORKSHOP: BRINGING CHARACTERS TO LIFE
Have you ever noticed how great stories and novels leave you just a little nostalgic at the end – like maybe you have said goodbye to a really good friend? Part of what makes these novels and stories great is that they have characters that we come to love. What about you? Maybe you have a really good idea for a novel or book? Maybe you have a character that you long to bring to life? In this workshop, we will talk about character development and how to give characters permission to do and say outrageous things that we sometimes wish we could do in real life. This workshop is appropriate for anyone who is interested in fiction writing.

Instructor: Brian Meyers

Sat., January 28, 1–3 pm, $39, #3321

NEW! WRITER’S WORKSHOP: PLOTTING THE PLOT
It has been said that there are really only seven plots in literature and that every story is the retelling of one of them. Whether you believe that or not, a really good plot in a novel is like watching a roller coaster where you even sure if the characters will survive. A good plot is a key part of any novel or short story. We will look at each of the seven traditional plot lines and compare them to different genres of fiction. We can also look at different plot lines and compare them to different stories and novels. Plot does not have to be as difficult as you imagine. Join us for this lively, entertaining workshop.

Instructor: Brian Meyers

Sat., February 4, 1–3 pm, $39, #3322

FINANCE

NEW! FINANCE FOR WOMEN

Many women can be overwhelmed by the massive amount of information that comes with planning their financial future and may not have an investment strategy when starting a portfolio. During our busy lives, we may have a tendency to collect investments or financial products randomly and lose sight of the overall financial strategy. Organizing your financial portfolio may provide you with more stability, focus and success. This workshop will help you: create better strategies for your portfolio; set short, interim and long-term goals; potentially gain tax advantages for today and for the long term; have a better probability of achieving your goals during and beyond the working years; and work successfully through the life-stage milestones.

BABY SIGN LANGUAGE
Baby sign language is the use of modified gestures from American Sign Language. This communication method can be an effective communication tool, as well as a fun way to bond with your child! Baby sign may also give a typically developing child a way to communicate several months earlier than those who only use vocal communication. Bring your sweet baby with you to begin communicating before the end of the class.

Amy Hoerst has bachelor’s degree in deaf education and a Master of Education in Special Education. She has worked as a sign language interpreter, a teacher of deaf and hard of hearing students, a sign language instructor, and has taught her own children how to sign since they were born.

PERSONAL SAFETY FOR THE DEAF OR HARD OF HEARING
Learn simple and effective self-defense strategies so that you can be prepared…just in case. Our Personal Safety instructor will dispel many of the myths created by the media as we introduce you to the proper mindset for self-defense. Topics include assaults in public, home invasions, armed assailants, rape defense, the use of weapons and legal considerations, common weapons to use at home, and effective striking methods.

This class is tailored to meet the needs of the deaf or hard of hearing. We have partnered with the Hearing, Speech & Deaf Center of Greater Cincinnati and interpreters will be available for this class.
FOOD & DRINK

NEW! CRAFT BEER 101
Curious about diving deeper into the world of beer but don’t know where to start? Join our class at Listermann Brewing Company taught by a certified beer judge. This class will begin with a brief background on Cincinnati’s brewing heritage, impact of prohibition, emergence of the craft industry and contributions by local breweries. You will tour the brewery and discover how each piece of equipment is used in the various stages of brewing. Then, you will head to the bar for tastings! Each style of beer is distinguished by specific ingredients and we will taste 4 styles. In addition, you will learn proper pouring technique and suggested glassware. At the end of the class, you will receive one full pint of your favorite Listermann brew in a take-home UC glass.

Instructor: Allen Moellmann

HOLISTIC WELLNESS

HEART OF MEDITATION: THE PATH OF SIMPLICITY
2500 years ago, the Buddha set forth a path of great simplicity and directness, by which the whole of life can be transformed. That profoundly original path, still taught today, requires no exotic practices - only a willingness to let life’s confusion and conflict settle down in the clear space of meditation. The awareness developed in meditation can begin to pervade all aspects of our lives, bringing wisdom to our actions. We will provide chairs and mediation cushions; try to avoid eating for an hour before class. No particular belief system required - just a desire to find the clarity and peace that mediation can bring.

Experience a fresh and innovative examination of one of the most critical periods of our city’s and our nation’s history during our new class:

CINCINNATI’S “GREATEST GENERATION”

The wartime challenges facing Cincinnati, as a Midwestern producer of war goods, as a vital transportation center (Union Terminal), with a racially and ethnically diverse population, mirrored those that faced our nation. In this way, Cincinnati’s story can serve as a viable case study in this effort to rethink the past. The course will examine the lives of several Cincinnatians, all unsung heroes in their own way.

Our instructor, Bob Miller, earned his Ph.D. in History from the University of Cincinnati in 1991. He is a published author of three books on aspects of Cincinnati history as well as numerous articles and features. His work on public history projects in the area include the long standing, award-winning museum exhibit Cincinnati Goes to War: A Community Responds to Total War, 1941-1945,” which ran at the Museum Center at Union Terminal from 1991 until 2016. More recently, Miller worked on Treasures of Our Military Past: 1788 to the Present in 2015.

Three month online program, February 6–April 28, $595, #1180

CERTIFICATE IN LEADERSHIP IN THE 21ST CENTURY: ONLINE
Leadership today demands increasingly more sophisticated skills. Executives today need to know traditional leadership principles and standard practices. At the same time, our economy is moving swiftly out of the industrial age into the new economy of the Internet, knowledge and innovation. So executive leaders today require a new perspective on the external environment, as well as new tools to lead one's internal organizational structure and way of doing business. This unique certificate addresses both these sets of skills.

Instructors: Henry J. Findlay, Constance Yates, William A. Draves
Three month online program, February 6–April 28, $695, #1714

CERTIFICATE IN NON-PROFIT ADMINISTRATION: ONLINE
Non-profits today need to be run like a business in many respects. You have competition, a need to generate income and a surplus, and staff need to be even more productive. Get the best training on revenue generation for nonprofits, and program evaluation for nonprofits, with our Certificate in Non-Profit Administration. You will come away with the latest information from instructors who train people in nonprofits.

Instructors: Fred Bayley, Myia Welsh
Three month online program, February 6–April 28, $595, #1718

CERTIFICATE IN PROJECT MANAGEMENT: ONLINE
In today’s business environment, there is a need for good project management. Project management provides visibility of project health to the business and the customer. Through continuous monitoring, early detection of variations to plan, schedule, and budget can be communicated to stakeholders for quick resolution, including project cancelation. Project management is one of the fastest paths to promotion by increasing your network through greater exposure.

CHANGE IN THE WORKPLACE: ONLINE
Most people do not like change even when we know that change is inevitable and will happen with or without our consent. A recent Gallup study found that nearly 70% of the American workforce is disengaged from their jobs. We perceive changes in careers to be too difficult to accomplish or we are too old, not skilled enough and may lack the funds to change our skill set. The good news is that those willing to embrace change are much more likely to thrive under new conditions. Take home strategies on how to deal with changes in your work environment and even how to introduce changes to your workplace culture.

Instructor: Brenton Rolle

GUITAR FOR BEGINNERS
Explore varying styles of music as you conquer the fundamentals of guitar technique, reading music, and chord study in a group setting. Increase your enjoyment of playing as you establish proper playing techniques. Bring an acoustic (not electric) guitar to all classes and find out that anyone can read music and anyone can play!

**Instructor:** Kevin Topmiller

7 weeks, Wednesdays, February 8–March 22, 8–9 pm, $159, #5224

UKULELE FOR BEGINNERS
Ukuleles aren’t just for luau! You’ll be amazed at the variety of styles you can play - from blues and country to pop and light rock. After mastering the fundamentals (tuning, holding and finger placement), we’ll focus on really getting comfortable with your instrument. Watch, listen, and play along as you build on the basics of chords, strumming, playing up the neck, and trying out some variations and tempos. No musical experience needed. Bring your ukulele and let’s make some music.

**Instructor:** Kevin Topmiller

7 weeks, Wednesdays, February 8–March 22, 5:15–6:30 pm, $159, #4214

UKULELE FOR INTERMEDIATES
Join in on the fun in this continuation class for beginners. You are ready for this class if you have a basic knowledge of chords already. Our focus will be on using more complicated chords and playing in higher positions. Bring your ukulele, learn, and have fun!

7 weeks, Wednesdays, February 8–March 22, 6:40–7:55 pm, $159, #4217

FIDDLING FOR BEGINNERS
Do you love the toe-tapping excitement of Irish music or American old-time, but never picked up a fiddle before? Rest assured, by the end of this class you’ll have a solid foundation on the instrument and a handful of great tunes! Along the way you’ll see how easy it is to learn music by ear (no sheet music required), get a taste of music history and theory, and, of course, have fun in the process. Learn how most music is built on simple patterns, enabling you to learn any tune you hear. Explore proper fiddle ergonomics so that you can enjoy a lifetime of playing. This is the class for you if you can’t play a tune or don’t even know how to hold the instrument and bow.

**Instructor:** Justin Bonar-Bridges

6 weeks, Wednesdays, January 18–February 22, 6:55–7:55 pm, $139, #4226

FIDDLING FOR INTERMEDIATES
This course is a continuation of the preceding course. Using the foundational skills and ear training learned in Level I, we’ll tackle some trickier tunes and explore techniques that will make your playing shine. If you’ve already learned some tunes by ear and have a background on fiddle or violin, or you’ve previously taken Fiddling for Beginners I, this class is for you.

NEW! EXPLORING FAMILY HISTORY THROUGH PHOTOGRAPHS & VIDEO

In this age of smartphones and selfies, we often forget about rich historical treasures - family photographs. Unfortunately, family photos are usually stored somewhere and can easily be disregarded, damaged, or thrown away. Photographs tell a visual story of a family and our elders can fill in the blanks by identifying the people in the photos and perhaps share stories triggered by the photos. This is a wonderful way to unlock the rich memories that lies within those old photographs and in the memories of our family elders. This class will explore the history of photography to better date old pictures and consider ways to preserve and share those snapshots from the past with the next generation. Class members will be encouraged to research family photo archives and share images with each other and to create a family video.

Instructor: John Engelman

Thursdays, February 2–March 9, 6-7:20 pm, $159, #8140

PHOTOGRAPHY: TAKING IT TO THE NEXT LEVEL

So you bought a nice camera and you feel a bit overwhelmed with all of the buttons and dials. This course is designed to help you understand the controls of the camera so you can create better pictures. Your pictures will improve and you will have a better understanding of your camera after the first class. We'll begin with a discussion of the technical aspects of photography but emphasis will be placed on telling stories with pictures and how to share them online or in print. You'll be encouraged to create a personal narrative based on your individual interests. We will also discuss how to photograph in various situations, from fleeting moments, wildlife, scenery, and people, plus the best time of day to photograph.

Instructor: John Engelman

Thursdays, February 2-March 9, 7:30-8:50 pm, $159, #3824

**SPORTS & ADVENTURE**

**NEW! CRAPPIE FISHING**

Across the country, crappie is gaining on bass as the number one sport fish. With the advent of several crappie fishing tournament trails, crappie pros and guides are finding more unique and creative techniques to put crappie in the boat. From spider rigging and long lining to dock shooting and pushing crankbaits, the instructors will teach you the new and productive ways to hook and land more slab crappie.

This class is an accelerated course in crappie fishing strategy, with eight hours of instruction from four of America’s top crappie anglers.

The instructors are crappie pros and full-time guides who have developed these techniques through trial and error. It has been said that 90% of the fish are in 10% of the water. While that may not be true in every instance, these instructors know exactly where to find them in every season.

MAKE! INTRODUCTION TO 3D PRINTING

In this class, students will be introduced to the technology, its history, and the types of things you can make with a 3D printer. This class provides a hands-on experience in designing and printing 3D models and functional products for home and hobbies.

David Parrott is the Director of Product Development at Polar 3D, a Cincinnati-based 3D printing start-up that provides a comprehensive 3D printing platform for STEAM education. David holds both a Master’s and Bachelor’s degree in Industrial Design from UC’s #1 ranked College of Design, Architecture, Arts and Planning and has spent over a decade working in the fields of medical and consumer product design and engineering. He is excited to share his knowledge and personal experience in 3D printing with you!

FINANCE FOR WOMEN

Many women can be overwhelmed by the massive amount of information that comes with planning their financial future and they may not have an investment strategy when they start a portfolio. Sometimes they don’t establish timelines, needs or goals and they don’t know how to stay on track. Debt, inflation, procrastination and a lack of focus are symptoms of poor financial management that can derail the best of your intentions. Organizing your financial portfolio may provide you with more stability, focus and success.

Glynnis Reinhart, RICP, is a Retirement Benefit Specialist with the Ohio Valley Branch of AXA Advisors. She holds her FINRA series 66 and 7 registrations as well as her life and health licenses. She also has a national certification in Retirement Planning and Long Term Care Planning. Glynnis’ passion is to empower women, young and not so young, to take responsibility for their own financial future.

During this workshop, Glynnis will help you:

- Create better strategies for your portfolio
- Set short, interim and long-term goals
- Potentially gain tax advantages for today and for the long term
- Have a better probability of achieving your goals during and beyond your working years, and
- Work successfully through your life-stage milestones

TEST REVIEW & PREPARATION

ACT PREPARATION
Losing sleep and getting anxious about test day? In this intensive class, you'll build confidence and make the most of your potential by studying strategies for taking the ACT and by reviewing topics covered by the ACT (math, writing and reading comprehension). Learn a variety of test taking methods and work with the instructor to adapt the ones that best suit your own unique style and personal strengths. You’ll get support for questions and concerns; plus discussions, PowerPoint, use of TPR materials, and lots of concrete examples. Discover approaches to increase your odds on each question type, how to use a process of elimination, construct a well-defined essay (optional) on this test, plan your critical reading passage strategy, and learn when it's good to guess.

Instructor: Allen Feibelman
2 weeks, Sundays, January 15–22, 9 am–4 pm, $154, plus textbook, #4603

SAT PREPARATION
Gain confidence and make the most of your potential by studying strategies for taking the SAT and by reviewing topics covered by the SAT. You will learn specific techniques for taking the math, writing and reading comprehension parts of the test. Discover how the test is structured, effective methods for solving each problem type, and what to expect. Acquire an arsenal of tools to help you succeed, including how to use a process of elimination, construct a well-defined essay on test day, plan your critical reading passage strategy, and decide how to handle the conundrum "to guess or not to guess."

Instructor: Allen Feibelman
2 weeks, Sundays, February 26–March 5, 9 am–4 pm, $154, plus textbook, #4604

TOEFL IBT PREPARATION CLASS
The Test of English as a Foreign Language (TOEFL) is used to measure English language proficiency. It is the most accepted test in the world; and Internet-based testing has made it even more accessible. This course will help you prepare to take the TOEFL as you focus on the main features of the test, test-taking strategies, exercises, and practice. We will cover the types of skills evaluated by the various sections of the test, including reading, listening, writing and speaking.

Instructor: Jennifer Wiebe
8 weeks, Wednesdays, January 25–March 15, 6:30–8:30 pm, $189, plus $40 for textbooks payable to the instructor, #4602
4 weeks, Saturdays, March 11–April 1, 9 am–1 pm, $189, plus $40 for textbooks payable to the instructor, #4602

GMAT PREPARATION: CONCENTRATED
Our concentrated course is team-taught and class size is kept small to enhance your learning experience. The English instructor provides an intro to the Graduate Management Admission Test, including common misconceptions, time management tips, and insights into how to study. He covers the analytical writing assessment and verbal sections. The math instructor teaches the quantitative and integrated reasoning sections and reviews concepts of algebra and geometry. You’ll work with authentic test questions and responses and arm yourself with skills and confidence by learning helpful strategies.

Instructors: Allen Feibelman, Bob VonLuehrte
4 weeks, Saturdays, February 11–March 4, 9 am–1 pm, $299, plus textbook, #4607

GRE PREPARATION: CONCENTRATED
Our concentrated content and small class size will help you lay the foundation for success on the GRE test. You’ll work with authentic questions and responses and gain confidence by learning helpful strategies in our team-taught course. The English instructor provides the intro to the GRE, including common misconceptions, time management tips, and insights into how to study; his focus is on teaching analytical writing and verbal reasoning skills. The math instructor teaches quantitative reasoning skills along with a review of concepts of algebra and geometry.

Instructors: Allen Feibelman, Bob VonLuehrte
4 weeks, Saturdays, February 11–March 4, 9 am–1 pm, $299, plus textbook, #4608

LSAT PREPARATION
The key to success on the Law School Admission Test is practice, strategy, and timing. Delve into a detailed analysis of each LSAT problem type: reading comprehension, analytical reasoning, and logical reasoning. By discussing the problems and explanations, you’ll develop the ability to approach the LSAT as a series of intellectual games to which you can apply strategies studied in class. You will also benefit from the instructor’s critique of your LSAT writing samples. The course culminates in a full-length mock exam. Using actual questions from previous tests, under timed conditions, will prepare you for the real environment. In addition, and outside of classroom hours, the instructor offers individualized assistance with the personal statement essay required for all law school applications.

Instructor: Sara Barry
Location: UC College of Law, 2540 Clifton Avenue, Cincinnati, OH 45221
4 weeks, Sundays, January 8–29, 10 am–2 pm, $299, plus textbook, #4601

FOR ALL YOU CRAPPIE FISHERMEN WITH CABIN FEVER, HERE’S THE CURE!

Crappie fishing is no longer a cane pole and bobber sport and the pursuit of this sport fish has never been more popular. Across the country, crappie is gaining on bass as the number one sport fish. With the advent of several crappie fishing tournament trails, crappie pros and guides are finding more unique and creative techniques to put crappie in the boat. A whole new collection of techniques are now out there. From spider rigging and long lining to dock shooting and pushing crankbaits, the instructors in Crappie University will teach you the new and productive ways to hook and land more slab crappie.

This class is an accelerated course in crappie fishing strategy, with eight hours of instruction from four of America’s top crappie anglers.

Russ Bailey, host of “Brush Pile Fishing” on the World Fishing Network and also host of the Midwest Crappie TV Series. Bailey has fourteen crappie tournament wins and has been a national finalist qualifier 15 times.

Barry Morrow, “the crappie coach“, a full-time guide and crappie pro in Oklahoma and Missouri. Morrow is a retired school superintendent and wrestling coach, and has been featured on the Sportsman Channel and as a pro angler has qualified for the Crappie Classic 14 straight times. He fishes on several tournament trails and has won three Crappie Master Events and back-to-back Missouri State Championships.

Mike Walters, a crappie pro with 28 years’ experience and 36 first-place finishes in Crappie U.S.A. and Crappie Masters’ events.

Doug Sikora, 2015 Indiana Slab Masters’ winner and six-time national qualifier.
