ONLINE REGISTRATION!
www.uc.edu/ce/olli
What classes do we offer?
OLLI at UC offers close to 300 classes which are taken by over 1400 members each year. This fall there are more than 100 classes. Most classes meet for 90 minutes weekly over an eight-week period. As an OLLI member you can choose from a wide assortment of lectures, seminars, field trips and special events.

Who are our teachers?
Many of our moderators are distinguished professors, both active and retired. Other teachers are experts in a variety of fields and include members who want to share their personal passion for a particular subject. There is one common denominator: they teach for the sheer love of teaching.

What are requirements to join?
Everyone age fifty and above can join. The only prerequisite is a desire to learn.

What does it cost?
For a single $80 payment each quarter, you can take as many classes as you like during that quarter. That’s roughly $3 an hour – about the price of a cup of coffee at Starbucks. (If you cannot afford to pay the $80, scholarships are available. Just contact the OLLI office for information.)

Extra benefits for OLLI members.
Rediscovering the joy of learning is just the beginning for OLLI members. Consider these other benefits:

- Discounted prices at local cultural events such as: Playhouse in the Park, Cincinnati Symphony Orchestra, College-Conservatory of Music, Cincinnati Shakespeare Company, Chamber Music Network and others.
- Reduced rates to join the UC Faculty Club and main campus gym/recreation center.
- OLLI sponsored special events include the holiday and spring luncheons and cultural programs such as Gilbert and Sullivan, the US Air Force Band, The Tuskegee Airmen and much more.
- In partnership with Sycamore Senior Center and Tri-Health Seniority take reasonably priced day trips, concerts and tours to events like Riverbend, Music Hall, the Ohio State Fair and Reds games.

Above all, meet interesting and accomplished people who will share with you the many benefits of being an OLLI member.

How to use this catalog

All class information in this catalog is presented in three different ways: by category, by class number, and by location/day of week.

Beginning on page 5, classes are broken out by category type (history, music, language, etc.) then listed alphabetically by class title, location, and class number.

Beginning on page 8, classes are listed in numerical order providing title, day, time, location, a brief description of the course and the background of the moderator.

Beginning on page 23, classes are listed by location, day of week, and time.

Depending upon your preference, you may want to begin by checking classes either by category, to determine your interest, or by location/day of week, to fit your schedule. Then you can go to the numerical listing by class number for more detailed information on each class that interests you.

Once you have decided which classes you would like to take, you may register online, by mail or by phone. To review classes and register online, follow the information in the box below. For mail registration, use the form located on the inside back page of this catalog.

4401 Beyond the Snapshot: Digital Foundations I  
Mondays, 2:30-4 p.m. (SSC)  
7 WEEK COURSE from October 3-November 14.  
Photography is the use of technology to create artistic images. In this beginner class, we combine both aspects to “make” a good photograph by increasing our technical knowledge to improve the artistic quality of our photographs. The sessions weave together the power and limitations of the camera with the basics of visual composition. Any digital camera will work for this class. We will discuss inexpensive digital cameras at the first class meeting for those who don’t have one. There will be weekly assignments between classes to “try out” the techniques. The assignments are “learning by doing.” CLASS LIMITED TO 14.

Co-Moderators: Howard Todd is a professor at the University of Cincinnati, Clermont College and a lifelong photographer. His photographs have won awards and have been featured in juried shows including a one-person show. He recently received a commission for a series of twenty prints for display in a new medical complex. Bernadette Clemens-Walatka is a member of Miami University’s professional staff. As a photographer, she has developed her skills through week-long photo workshops and independent shooting across the United States. Her images have won regional awards and have been featured in juried shows in galleries in Southwest Ohio.

5025 Intermediate Digital Photography Workshop  
Thursdays, 10:35 a.m.-Noon (ADI)  
This workshop will help those of you with a basic understanding of photography and a desire to learn more at the next skill level. You will learn to train your eyes to find artistic photo opportunities and to make choices turning what you see into photos you will be proud to show as works of art. This is not a technology class. We are learning to see differently with a camera as a tool. Weekly assignments will combine with sharing the results to advance knowledge and abilities beyond the basic level. CLASS LIMITED TO 12.

Moderator: Muriel Foster is an award-winning photographer whose fine art photographs are in corporate and private collections. Her exhibition experience includes major regional competitions, national shows and four one woman shows. She is a published author, writer and photographer. As a gentle physical exercise form, doing Tai Chi can lead to increased stamina and muscle tone, to improved balance, and to more effective breathing. As a form of “meditation in motion,” Tai Chi can provide mental benefits of stress reduction and can provide for a more relaxed disposition. Performing Tai Chi can be used as a convenient and effective regular exercise program.

Moderator: David Schiel, Tai Chi enthusiast.

5128 Yes! You Can Become a Better Photographer
Thursdays, 9-10:25 a.m. (ADI)

This workshop is about you and your development toward becoming a better photographer. As in any visual art form, good photographs are created by what one sees. Becoming more aware allows the images you see to become the photographs you want. Photographers using inexpensive digital cameras can do take good - even great - photographs. This is a basic working class with photography field assignments each week. We will learn from each other as we share each week's assignment results. CLASS LIMITED TO 12.

Moderator: Muriel Foster is an award-winning photographer whose fine art photographs are in both corporate and private collections. She is a published author and photographer. 6330  Cincinnati and Northern Kentucky Architecture XIV  
**UPDATED**

Tuesdays, 1-2:25 p.m. (TUC)

In this slide-lectures series, using historic and contemporary views to examine the rich architectural history of the Cincinnati area, we continue to explore the period following Cincinnati’s 1888 Bicentennial celebrations, perhaps the climax of our area’s 19th century development. In the 1890’s a continuing reaction from the heavy, Medieval-inspired Richardsonian Romanesque style led toward lighter Classical revival styles known as “The Gilded Age,” “American Renaissance,” or the Colonial Revival. “Old Master” architects McLaughlin and the Hannafords produced distinguished late works, and young firms like Elzner & Anderson and Garber & Woodward introduced exciting new stylistic approaches and technological innovations.

Moderator: Walter E. Langsam, a Yale trained architectural historian and historic preservationist, has taught at UC for 25 years and gives frequent popular lectures and tours. He is the author of “Great Houses of the Queen City” (1997) and contributed to “Architecture in Cincinnati” (2006). His “Biographical Dictionary for Cincinnati Architects, 1788-1940,” has been made available by the Architectural Foundation of Cincinnati at www.architecturecincy.org.

6335 Countercultural Collisions  
Tuesdays, 1-2:25 p.m. (TUC)

Bliss, belief, revolution? During the Sixties strife on college campuses was at times more than pure youthful exuberance. Pivotal in the radicalization of student consciousness were certain particularly compelling thinkers and personalities, whose presence there, or influence from afar, gave them cultic status. Who doesn't remember Alan Watts, Thomas Merton, Timothy Leary, Norman Mailer, Tom Wolfe, Andy Warhol, and Chairman Mao? To reassemble a provisional mosaic of these and many others who set the agenda for a generation will be the objective of this all discussion course.

**6443 By Thought and Thought Alone?**
Tuesdays, 10:35 a.m.-Noon (TUC)

Famously, the armchair philosopher sits closed up in his study trying to interrogate the universe. Can he by intellect alone presume to see beyond mere phenomena to the core of the Real via tiny footsteps up the staircase of fine discrimination in language to ultimate incorrigible generalities? Science scoffs, demanding evidence that might confirm the Real. Who’s correct? This course, pure participation - no reading - attempts blanket vindication of all armchair speculators.

Tuesdays, 10:35 a.m.-Noon (TUC)

Physics began changing dramatically around 1900 with the advent of such theories as Relativity and Quantum Mechanics. This will lead us to a better understanding of The New Physics. In this third course we will begin our examination of Modern Physics beginning with the Ultraviolet Catastrophe and Max Plank’s ingenious solution which led to the development of Quantum Mechanics.

Calling all volunteers

The Osher Lifelong Learning Institute at UC is primarily a volunteer organization. While there’s a small paid staff, members do a great deal of the work—everything from addressing envelopes to evaluating curriculum to producing this catalog. Here are some of the committees that keep OLLI afloat: office volunteers, in class volunteers, membership, curriculum, marketing, special events and Wednesday WOWs.

Please call the office (513-556-9186) and join the corps of OLLI volunteers. Working together for OLLI is both fun and fulfilling.
Kelly Sullivan, owner of Bishop's Bicycles in Milford, Ohio.

We welcome the opportunity to speak to your church, club or professional organization about OLLI. We will provide a 15 minute presentation on OLLI and bring brochures and catalogs to share.

Helping to make your “great experience” even greater

What makes OLLI Great? You do!

It would be hard to find a more enthusiastic and energized group of people than the members of our Osher Lifelong Learning Institute at the University of Cincinnati. Volunteers abound. Participation is contagious as we rediscover the joy of learning.

Your classmates who are members of Friends of OLLI at UC strongly agree. Their contributions make a major difference in your program’s success.

Of course, your gift to Friends is an important factor in enhancing the educational experience for everyone. For example, your Friends contributions pay for:

- Parking on Main Campus for members and moderators
- Audio/visual equipment
- Scholarships
- Support of luncheons, social gatherings, and special events
- Other expenses that tuition cannot cover

Your generous support guarantees that OLLI will continue to offer a superb quality program at bargain prices. OLLI is your “college in retirement.” It is important in your continued growth and enjoyment of life. Please put OLLI high on your charitable giving list. Make your gift today. Your classmates are counting on you.
