OLLI Webex EVENTS

Webex Events are different from Webex Meetings.

You will receive an email with the course information: the course number, title, date and time of program; event number, password, and a link to open the meeting in a browser window.

If you have difficulty clicking the link, select link text (the purple text as shown above), copy and paste it into the address bar of a browser (chrome, safari, edge).

The easiest way to attend these meetings is to click the link to open a browser window.

A browser window will open. Enter your name and email address and click JOIN BY BROWSER.
If you click the JOIN NOW button, rather than the Join by Browser, you may be requested to install an EXTENSION. This is a one-time software installation. Follow the prompts to complete the installation for your browser type. (Chrome, Safari, Edge)

Once you have joined the webex Event, you will notice that your microphone and video camera are OFF.

You may ask questions via the Question & Answer panel, see below:

If you do not hear the speaker, click the phone icon (see image above) for available options, and select use computer for audio. Adjust the volume of your speakers as necessary.
