### Resolution

WHEREAS, UC has many student veterans.

WHEREAS, many of these student veterans receive a stipend for housing and living expenses.

WHEREAS, UC offers hybrid courses that are taken by student veterans.

WHEREAS, the amount of the stipend is reduced to ½ for online courses.

WHEREAS, the VA considers any class that is less than 51% face to face an “online course.”

WHEREAS, on Catalyst, hybrid courses are listed as “Partially DL 26-74%.”

WHEREAS, the VA considers such a class to be an “online course” because it *could be* less than 51% face to face, even if the face to face element is actually 51% or greater.

WHEREAS, this results in student veterans receiving only ½ of their stipend when taking hybrid courses.

WHEREAS, there is no mechanism in Catalyst to indicate that a hybrid course is at least 51% face to face.

NOW THEREFORE, be it resolved that the UC Registrar is hereby requested to add a category to Catalyst of “Partially DL 26-49%” to allow certain hybrid courses to qualify for full VA stipend for student veterans, and a category of “Partially DL 50-74%” for other courses
