(b) As determined by the chair of the committee on committees, in collaboration with the faculty senate cabinet, the election of faculty to university committees may be by paper ballot or by electronic ballot, but not by both for any single election. If using a paper ballot, voting by faculty senators shall be conducted at faculty senate meetings in conformance with parliamentary procedures and the bylaws of the university faculty. If using electronic ballots, all members shall be eligible to vote. After the call for nominations, faculty shall have three working days to submit nominations and statements of interest. Faculty senate members will then have three days to submit additional nominations. Electronic voting by the members shall be completed within three working days of electronic distribution of the final ballot. (D) Article IV. College faculty:

(1) Section 1. Authority.

Each college faculty shall have the right to organize itself in order to advise, aid, and counsel the dean of the college on matters affecting the college and the university, and shall be given sufficient time to do so. Each college faculty may elect a faculty committee to exercise the powers of the college faculty in the interim between its meetings. The all-university graduate faculty has the right to organize itself and the responsibility for determining educational policies and regulating requirements for the admission of students, their candidacy, and the awarding to them of degrees. A graduate council includes members chosen as representatives of the major graduate program groupings.

Subject to the approval of the board, each faculty shall make its own regulations governing the admission and exclusion of students, the courses of instruction to be offered, grading policy, recommendations for degrees, honors, and prizes, and such other matters as may be within its jurisdiction. A copy of such regulations shall be maintained and made available for review in the office of the dean or other head of the college or division and the senior vice president for academic affairs and provost.

The faculty shall have a voice through faculty representatives elected for that purpose in the formulation of long-range plans and in decisions relating to their implementation. Similarly, faculty representatives elected for that purpose shall have a voice where decisions relating to the use and creation of existing or prospective physical resources are being made.

Bylaws and amendments thereto of the colleges and faculties must be approved by the senior vice president for academic affairs and provost before they become effective. Bylaws and amendments of the colleges in the medical center shall be reviewed by the

vice president for health affairs before being submitted to the senior vice president for academic affairs and provost for approval.

If a question arises as to whether a matter is a unit, college, or University concern, the question shall be resolved by the president after seeking the advice of the faculty senate.

(2) Section 2. Membership.

Each college faculty shall consist of the president of the university, the senior vice president for academic affairs and provost, the dean, professors, associate professors, assistant professors, instructors, and others of academic or administrative rank as may be elected thereto by the respective faculty with the approval of the dean.

(2) Section 3. Parliamentary rules.

Decisions taken by the college faculty shall be governed by the general usage of deliberative bodies. Every motion shall be reduced to writing upon request of a member.

All voting shall be in accord with procedures set forth in college bylaws. An affirmative vote of a majority of those voting is sufficient to pass any matter presented for decision unless otherwise provided in the college bylaws.

(4) Section 4. Faculty decanal review committee.

Early in the fall term of the penultimate year of each dean's appointment, if the dean does wish to serve another term, the dean shall be reviewed by a committee of faculty of that college charged to report to the provost on the quality of leadership provided by their dean in accomplishing the goals and objectives for the college. The provost will provide the committee with copies of the annual reports that the dean has prepared for the faculty during the dean's tenure. The faculty assessment committee must function in a confidential manner during its deliberations to the extent permitted by law.

When the faculty assessment committee has gathered its data and completed its internal deliberations, it shall meet with the provost to present its findings, to respond to questions by the provost, and to ask questions of the provost. Following this dialogue the committee will submit a summary report to the provost, including a recommendation for reappointment or non-reappointment of the dean. Should the provost's decision be to recommend reappointment of the dean, the provost and the dean will review and update, as appropriate, the goals and objectives for that particular college; the dean will then issue a report to the faculty as done after each of the annual assessments including in that report the length of the reappointment.

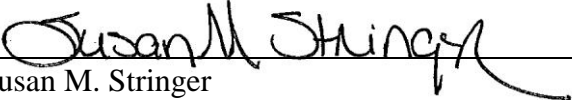

(E) Article V. Alteration, amendment, or repeal.

Any bylaw of the university faculty may be altered, amended, or repealed at any regular or special meeting by a vote of the majority of the members present. Such alteration, amendment, or repeal of a bylaw shall become effective immediately on approval of the same by the board of trustees of the university of Cincinnati and the inclusion into rule 3361:50-3-02 of the Ohio

Administrative Code. However, before any proposed alteration, amendment, or repeal of a bylaw may be acted on at a meeting of the university faculty, the proposal to amend, alter, or repeal shall be submitted to the chairperson of the university faculty and he/she shall give written notice thereof to the members of the university faculty at least two weeks in advance of the meeting at which its adoption is proposed.
