

Resolution to
Include Faculty Senate Cabinet Representation on
the Academic Operations Committee (AOC)

Whereas the stated primary responsibility of the Academic Operations Committee is, "advancement of the University's teaching, research and service missions through strategic academic budgeting, through effective utilization of resources, and through effective enrollment management"; and

Whereas the Faculty Senate Cabinet consists of elected faculty leaders with a commitment to these same goals; and

Whereas the Academic Operations Committee would benefit from the additional expertise and perspective of non-administrative faculty in informing decisions concerning academic funding priorities and academic support services as it makes recommendations to the Executive Committee; and

Whereas the Faculty Senate Cabinet has consulted the Provost on this matter, as directed by the President, and it has learned that Provost Perzigian is supportive of including Senate Cabinet representation on the AOC;

Therefore be it resolved that the Faculty Senate of the University of Cincinnati recommends to the Provost and the President of the University that two members of the Faculty Senate Cabinet designated by the Senate Cabinet be added to the membership of the Academic Operations Committee.
