Re: Possible Sexual Assault
Date: May 1, 2021

On April 3, 2021, my then-boyfriend, Michael, sexually assaulted me in my apartment. We were in my bedroom and I was trying to sleep after a long night of going out with Michael and some friends. Michael knows I'm against premarital sex, but that night I was very intoxicated and he had sex with me, even though I was too incapacitated to consent and can't remember everything.

I reviewed the pamphlet from your office and understand that an email to you may be considered a formal complaint as long as I sign my name. Please see my electronic signature below and let me know if you have any questions. I'd like to meet with someone asap. Thanks.
